DEATH OF CONSTANS CURTIN

An Active Life of a Noble Man Suddenly Ends.

WAS BURIED ON WEDNESDAY.

A Large Concourse of Friends and Neighbors Follow His Remains to Their Last Resting Place.

Once again the people of this community have been shocked by the unrelenting grasp of death; the grim destroyer of frail humanity this time carrying off one of the oldest and best known residents in Centre county, in the person of Constans Curtin, who passed into the great beyond at two o'clock this morning. Shortly after the commencing of the new day, death stole in and claimed its victim, and the spirit of the man who had passed his seventy-eighth year, was wafted to its eternal home across the dark valley of death.

Constans Curtin was born in March of 1817, and was the son of Roland Curtin, Sr. He was a grandson of the late United States Senator Andrew Gregg, and a brother of ex-Governor Andrew Gregg Curtin, now deceased. The greater part of Mr. Curtin's life was spent at the iron works at Curtin Station, which was formerly the Eagle Iron works. Ever since he was a boy he has been in the iron business and up until about ten years ago he was one of the largest iron masters in the country. His later years were not spent in active service, he having retired, and the younger Curtin generation took charge. Besides being interested in the Curtin's works, he was connected with the nail works at Milton, Pa. Mr. Curtin was a man of considerable means and was a large stockholder in the Centre county bank, of this place.

The health of Mr. Curtin commenced to fail about three years ago, and ever since he has been afflicted with stomach trouble until death came to relieve him.

Funeral of Constans Curtin.

The funeral services over the remains of Constans Curtin were held this afternoon at 2 o'clock from the residence of Harry R. Curtin, at Curtins' works. It was a beautiful but very impressive service, made all the more so by the large number of sorrowing friends of the deceased who were present. The entire neighborhood for miles around was there to get a last glimpse of the man who had led such an active and noble life. Ever since he had attained his majority, Mr. Curtin had been connected with the iron works at Curtin, and it was this that brought so many people to pay their respect to the dead. Many of them had been in his employ all their lives and grief stricken faces that gathered about the bier was the highest token of the esteem in which the deceased was held. Members of firms in which Mr. Curtin was interested were also there, and no one realized what a loss the world has had more than they. Always careful in his business transactions he soon made for himself the name of a shrewd ironmaster. Throughout the various iron industries is where the loss will be felt the keenest, as the advice of Mr. Curtin in matters connected with such works, was as good as law.

The funeral services were conducted by Rev. Wright, of the Episcopal church, after which the cortege moved to Bellefonte. A committee of six from the Masons took charge of the remains at the house and the cortege maved slowly to the Union cemetery at Bellefonte. At McCoy's corner on Linn street, the Masons were waiting in a body and joined the funeral procession when it reached that place.

The pall bearers were the following members of the Blue Lodge: Dr. Dobbins, Robert Hepburn, Hammond Sechler, Geo. W. Jackson, William Shortledge and David M. Butts.

The last rites at the grave were unusually impressive as Mr. Curtin was a mason o high degree. The ceremony was according to the custom of the Masonic Order. After a last look at the dead by the relatives of the deceased, all that was mortal of Constans Curtin was forever hid from view; and the Masons and friends wended their way out of the city of the dead realizing that they were leaving behind, one whose memory will ever live.

A Cold Weather Suggestion.

If you are thinking of putting a Steam or Hot Water Heating Apparatus in your residence, it will be to your advantage to consult us in regard to it, as we have a very low price on all styles of Heating Goods of the best quality and our workmanship is of the highest grade.

R. J. SCHAD & BRO.,
Bellefonte, Pa.

ST. PAUL LEFT FOR TRIAL TRIP.

Made the Forty Miles to Reedy Island in Four Hours.

On Board Steamship, St. Paul, off Reedy Island, Del., Sept. 29.—The International Navigation company's new steamship, St. Paul, left Cramps' ship yards, Philadelphia, this morning at 7.10 o'clock for her trial trip and made the run of forty miles to Reedy island in 4 hours. When the vessel arrived off here anchor was dropped to wait the high tide.

Although it was Sunday morning and Philadelphia's river front was practically deserted, the St. Paul was saluted by every steam craft she passed, and her whistle was consequently replying to the salutes until she had passed the city. It is a matter of no small danger for a ship of the St. Paul's draught to make her way over the shoals in the Delaware river, and Pilot Lewis Chambers picked the way as carefully as an old woman crossing the crowded streets of a busy city, and at no time did he push the St. Paul faster tnan thirteen knots.

The anchor was laid at 6 o'clock this evening and the course shaped for Delaware breakwater. The run to the breakwater, sixty-five miles, will be made in about four hours and a half. The ship tonight will anchor at the Brown, a few miles above the breakwater.

To-morrow morning compasses will be adjusted and officers of the International Navigation company and some few invited guests will be taken aboard from Lewes, Del., where they came by train from Phila. Then the St. Paul will go to sea, the course being shaped for Gloucester, Mass. It is expected that the vessel will arrive off Gloucester some time Tuesday afternoon, where the naval officers contituting the government trial board will come aboard, and on Wednesday the trial will be made. After the trial the ship will proceed to New York, arriving there Tuesday.

Bloomers Were Put Away.

Bucyrus, O., Sept 29.—Several weeks ago two young women who wore bicycle bloomers and were astride their wheels, passed through Bucyrus on their way to Michigan, where they were going to visit friends. They started back wearing their jaunty costumes, and came through all right until they struck Chatfield, a small village north of here, where the good people are voting for Andrew Jackson. On account of a storm they were compelled to stop there to seek shelter. They were nicely treated and stayed there a day or two, the people with whom they were stopping furnishing them a change of clothing while their abbreviated trousery were drying. When they were ready to go they asked for their bicycle costumes and were politely informed that they were not fit clothing for women to wear, and the good people of the town had held a sewing bee and made them new and more modest gowns, which were at their disposal. The girls were astonished, but no amount of argument would avail and they finally donned the neat, but plain dresses, and rode aw ay.

A New Catechism.

New York, Sept. 29.—One of the important matters which will come before the Catholic archbishops of the United States, to be held at the Catholic universiiy, in Washington, on Tuesday next, will be that relating to the revision, or possible abanonment, of the present Catholic catechism.

The present or so-called Baltimore catechism was authorized by the plenary council of Baltimore in 1885, and since that time has been in general and official use. It was the result of the labors of a committee.

The new work was found too complex for the easy understanding of children, and the addition of a vocabulary of forty-three pages to the original work of sixty-eight pages, in explanation of words or passages, was soon made.

In some diocesses in the country the present catechism has been altogether discarded, and words prepared under the direction of the several bishops have been substituted.

Shot Her Rival.

Washington, C. H., O., Sept. 29.—Lida Hargrave, of this place, shot and badly wounded Daisy Redman, of Columbus, here, late last night. Miss Redman and Miss Hargrave attended a festival last evening. A young man, who had been paying attentions to Miss Hargrave, started to accompany Miss Redman home.

This aroused the jealousy of Miss Hargrave. She procured a revolver, followed the couple, and shot Miss Redman in the shoulder. The girl was arrested late at night at her home.

Going Into New Quarters.

The large room on the third floor of the Eagle Building is about finished and on Tuesday the Knights of the Golden Eagles will move into it. The Eagles will have one of the finest rooms in town which will be a big improvement over their old location. Col. Pruner is hustling the improvements on his building and it will not be long before the whole building will be ready for occupancy.

STATE COLLEGE WINS EASILY

Gettysburg Goes Down Before the Blue and White.

GARMANS OPERA HOUSE ON FIRE.

Many Local Items of General and Personal Interest to Our Readers.

Saturday afternoon the first foot-ball game of the season was played on Beaver Field between the State College and Gettysburg teams.

The game was void of interest and was so one-sided that many of the spectators left the field before the game was finished. The visiting team was no match for the wearers of the blue and white and at the close of the game the score stood 48 to 0 in favor of State.

It was a good opportunity however, to test the strength of the home team and afforded a chance to try many substitutes. In the second-half part of the second team was put on which made the game more interesting. At no stage of the game were the visitors careless in their play, and great credit is due them for the way they worked against a team which was so far superior to them. They were handicapped to a certain extent throughout the entire game by having some of their best players injured so that they could not put up their best game. The State College team this year is largely made up of new men, and most of them showed up admirably. Robinson, Curtin, Hoskins, McCaskey and the Dunsmore brothers put up a game that was far above the average, and throughout the whole game their many fine tackles and runs elicited loud applause.

The College students deserve much praise for their gentlemanly conduct in their treatment of the visiting players, and that childish guying at the visiting teams, which has been so marked in the past was noticeably absent during Saturday's game.

C. M. Thompson is the new manager of the foot-ball team this season and it is very evident that he has much to learn. He certainly was wise in wearing a cap on Saturday for surely no hat could fit so swelled a head. His greenness at the business is best illustrated by the remark he made to representatives of the DAILY NEWS and the *Gazette* that Bellefonte's papers advertising State College affairs did not amount to anything. If this is the case we would like to know why heretofore at almost every game, the State College Athletic officials sent down earnest requests that their games be advertised? Since Mr. Thompson has given us this kind of information we will gladly inform him that he need not be worried about seeing any more advertising for his games in Bellefonte papers in the future. Manager Thompson has "wheels" in his head, such as little boys ride.

Hustling Liverymen.

Tuesday morning Alf. Baum, Isaac Lose, Mr. Fauble and Lew Bullock departed for Lock Haven. They took with them four horses and a three seated carriage. They evidently must have had good success for when they returned about 1 o'clock Wednesday morning, they had five horses and a good three seated carriage. The Lock Haven liverymens retreat must be a good place to do business.

Serenaded Monday Night.

About 11 o'clock Monday night, the residents of East Linn street, were awakened by the loud pounding on tin pans and buckets. It was some time before the cause of the racket could be discovered, until it was remembered that Mr. Charles Cruse had lately returned with his new bride and the boys were out to welcome him home.

In the Social Whirl.

Society was ablaze last week in Bellefonte, and several nice affairs were given in honor of visitors. A tea was given at Brockerhoffs; a whist party at Mr. and Mrs. John Bullocks, and a luncheon at the Bush House in honor of Mrs. Pierpoint.

To See the "Stowaway."

W. A. Goodwin, organist at the Episcopal church, as a slight reward to the choir boys, took them to see the "Stowaway" at the opera house Tuesday evening. This is a highly commendable act and one that was appreciated by the boys.

Almost All Repaired.

We are informed by Supt. of the Gas Co. Hugh S. Taylor, that the gas leaks around town are almost all repaired and that a big difference is noticed in the results, especially in the way of profits.

AFFAIRS IN CUBA.

The Spanish Troops Succeed in Defeating 800 Insurgents.

Santiago De Cuba, Sept. 18, via Key West, Fla., Sept. 27.—Official reports from Guantanamo say that on Monday, the 16th, a Spanish column attacked the rebel camp Piedra, between the Felicidad and Rio Sew, occupied by 800 insurgents under Leader Cil, and killed eight of the rebels before driving them from their position. Three Spanish soldiers were wounded. When the Spaniards took possession of the rebel camp they found several explosive shells buried, but they were dug up before any damage occurred.

It is reported here that Antonio Maceo is moving toward the villas with 6,000 cavalrymen. Another report is to the effect that Jose Maceo is dead of heart disease, but the report is not credited. The government is very silent in the matter, whereas if the report were true it would be published officially with much rejoicing.

The recent recruits from Spain are not likely to be of any material benefit to the authorities. Of those who arrived a few days ago many have died and numerous others are in the hospitals. Six succumbed to yellow fever within twenty-four hours of their landing here. Those of the recruits who are yet able to move about the streets are, because of their uncleanliness and drinking habits, likely to be in hospitals or graves within a short time.

From Baracoa come reports showing that city to be in a state of siege and threatened with extinction. The insurgents do not allow anything to enter the city from the outlying districts, and if the city is not burned out its inhabitants stand a good chance of being starved out. On the 14th the rebels broke the acqueduct and burned the costly elevators which were recently built. Many business men with their families, have left Baracoa and come here to stay. One of them reports a dastardly double murder on the streets of Baracoa a few days ago. A soldier loaded his gun and without any known cause deliberately fired at a corporal, killing him instantly. Another soldier, who was with the corporal, was also shot and killed.

Retirement of Schofield.

Washington, Sept. 29.—At noon to-day Lieut. Gen. Schofield, having reached the age of retirment—64—was placed on the retired list and relinquished the command of the army. There was no ceremony attendant upon the retirement, though this evening he dined the members of his staff at the Arlington hotel. On Saturday afternoon the officers of the army stationed in Washington called on Gen. Schofield to pay their respects and bid him good-bye.

Maj. Gn. Nelson A. Miles will be appointed by the President to-morrow to succeed Gen. Schofield as commanding general of the army. Maj. Gen. Ruger has been ordered to relieve Gen. Miles at New York as department commander of the East.

Capt. James, retired, who was arrested on Friday for disrespect to the then acting Secretary of War, Gen. Schofield, was released on habeas corpus by the Supreme court of the District of Columbia Saturnay afternoon upon his own recognizance. He will appear before the court next Saturday. As Secretary Lamont has just returned to Washington and has little information in regard to the arrest, he declines to discuss it or to state what if any action he will take.

A Serious Accident.

About 6 o'clock Tuesday afternoon a shocking accident happened at Centre Mills Furnace by which John Hoy, aged 25 years, a highly respected citizen of that place, may lose his life. As it is he has three ribs broken and is injured otherwise so that he lies in a precarious condition. It seems they were having a barn-raising and John Hoy was one of the helpers. When they had the building raised about ten feet from the ground, Mr. Hoy was fixing a large plank as a prop, when he overbalanced and fell, the timber falling on him. When picked up he was unconscious and at first it was thought he was dead. Physicians were immediately summoned who, made a hasty examination and found that besides having three ribs broken Mr. Hoy sustained injuries such as may cost him his life.

A barn-raising is always an occasion for having a general good time among the farmers after the harvesting is done. Such was the case yesterday when the frivolity was suddenly ended by the distressing accident.

The Reason Why.

The reason the merchants should advertize in the Daily News is because their goods would then be brought to the notice of every family in town. New subscribers are being added to the list every day which is the best testimonial the News could receive.

DECISIONS IN TAX APPEALS

Judge Love Hands Down His Opinion In the Assessment Cases.

SUSTAINS SOME, REFUSES OTHERS.

Board of Revision Partly Upheld In Some Cases, and Over-ruled In Others.—A Victory for the Property Owners.

This afternoon Judge Love handed down his opinion in the cases of appeals against assessments as prescribed by the Board of Revision. His opinion is as follows:

This is an appeal by C. F. Cook Trustee from the assessed valuation of the real estate of the estate of M. McBride deceased as determined by the Board of Revision for the purposes of taxation this triennial assessment.

The evidence shows that this property was increased in valuation by the Board of Revision from $2,000 at which it was assessed in 1892 to $4,000 in 1895. Just 100 per cent. The assessments in 1892 were sought to be made upon a basis of the cash value of all property throughout the county, as well as in 1895.

It also shows that the buildings are in a state of decay and great delapidation, and are very expensive to keep in repair so as to be tenantable. As compared with the assessed value of many other properties of a similar character we find that a number of properties of double or almost double the value of this property are assessed at about the same as this one and many properties in the Borough of about equal value assessed at one-third less. We therefore feel warranted in reducing the assessed value of this property from $4,000 to $3,200.

In reference to the Brockerhoff estate:

After a careful consideraiton of the evidence offered in this appeal, we feel warranted from the evidence as to values and comparative values in making the following modifications in the assessments of the properities appealed from in this case viz: The Brockerhoff house we reduce from $35,000 to 33,000. The Grauer house we reduce from $2000 to $1500 dollars and as to the other property appealed from we affirm the assessment as fixed by the Board of Revision.

Was Getting Gay.

Monday night about 8 o'clock Messrs. McMullen and Stonerode, of Milesburg, brought a man claiming himself to be Richard Nightingale, to Bellefonte and had him locked up. Nightingale had started in to ride around Milesburg in a "little red wagon," and finally was pulled in by Constable McMullen, of that place. While in Milesburg before he was finally caught, Nightingale was taking many liberties by going into peoples houses and taking hats and other small things which were of no use to him whatever. His mania seemed to be a longing desire for a hat and when remonstrated with, he became very abusive. After he had been running things in this way for some time, Constable McMullen arrested him and with the aid of Mr. Stonerode, brought him to Bellefonte, where he was locked up in jail. While in the sheriff's office, the prisoner tried to escape, although both hands were secured, by violently bumping Stonerode in the face with his head. He was then locked up for safe keeping until he has a hearing.

The saddest part of the affair is that Nightingale is an old soldier—or at least he claims he is—and was drunk at the time he got into trouble. He said he was in Bellefonte Monday and was on his way to the old Soldiers' home at Erie, when he was arrested.

Change in Officers' Dress.

Adjutant General Stewart issued general orders yesterday designating the style of uniform to be worn by the officers of the National Guard. The orders go into effect June 1, 1896, and provides that the uniforms shall conform with those worn by United States Army officers. The only change from those now worn by the officers of the guard is the wide braid across the breast and up the back of the undress coats, which will not be worn under the new regulations.

Let it be Attended to.

Now as winter is coming on, would it not be a good plan for the citizens to pay particular attention to repairing the board walks and damaged pavements. When you stop to think how many law suits have arisen from this cause you can readily see the importance of repairing all defects at once. After the snow has come it will be more difficult and expensive than it would be just now; and a careful consideration of the matter will convince you that an outlay of a few cents may save you lots of trouble.

A JEALOUS WOMAN COMMITS MURDER.

Donned Her Husband's Clothes and Kills Her Rival.

Albany, Ore., Sept. 30.—Particulars of the tragedy by which Mrs. Lottie Hiatt was shot and fatally injured at her home near Scio, a small and remote town in Lynn county, furnish a very strange story of a woman's murderous jealousy. Mrs. John Hannah, 45 years of age, and the mother of a family, donned masculine garb and false whiskers and last Thursday night entered the house of Mrs. Lottie Hiatt and shot her twice. Her motive was jealousy. Mrs. Hiatt, she believed, had estranged the affections of her husband.

The Hiatt family, together with Mrs. Elizabeth Holman, Mrs. Lottie Hiatt's mother, lived about a quarter of a mile north of Jordan's store, a little settlement eight miles from Scio, and on Thursday evening at dusk their home was approached by a man who gruffly demanded admittance. This being accorded him, he entered and drawing a pistol told the inmates to throw up their hands and say where they kept their money. Mrs. Holman, aged 82 years, resented the intrusion and seized a billet of wood and gave the intruder a rap on the face with it, being instantly knocked down for her temerity.

Robbery was only a blind in the case, and the deeper impulse of passionate jealousy was the real motive of the crime, as it has been long known in the countryside there that Mrs. Hannah was jealous of her husband and Mrs. Hiatt. The would-be murderess was turned over to the officers of the county and is in jail, while her victim, although still living, is beyond hope of recovery.

A Storm at Sea

Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sea sickness. They who traverse the "gigantic wetness" should be provided with Hostetter's Stomach Bitters, which quiets disordered stomachs with gratifying speed and certainty. To the hurtful influence of a tropic, malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, mariners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, concur in pronouncing it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cole, and it is an efficient defense against all forms of malaria. It can be depended upon in dyspepsia, liver and kidney trouble.

A Creditable Institution.

It is seldom that towns the size o Bellefonte can afford an Academy such as is located here. This year more students have been entered on the roll than ever before. The reason for this is the exceptionally fine grade of instruction pupils who attend there receive, and the testimonials received from all over the state is the best evidence of this fact. Parents desiring their children to be thoroughly educated will do well to send them there.

Where did I get this dreadful cough?

No matter; the great question is How shall I get rid of it? Use THE PINEOLA BALSAM of soothing combination of the remedies nature has put in the pine and other balsmic trees It cures the inflammation and tickling in the throat and if taken in time will prevenl the spread of the disease to the lingi. Elo's Pineola Balsam is strongly recommended in cases of asthma. Twenty-five cents is the price. Tell the neighbors about it.

Coming Home This Week.

The friends of Philip Beezer will be glad to hear that he left the Hospital in Phila. yesterday (Sunday) and will be home some time this week. He was taken there to be treated for appendicitis and is now entirely cured.

Secured a Good Position

Thomas Purdue will leave on Tuesday for Huntingdon, where he has secured a position with the Pennsylvania Industrial Reformatory. Mr. Purdue is very fortunate to secure the position as it is a good one, but at the same time he is fully capable to fill it. We wish him much success.

Getting Ready to Build.

This morning ground was broken for the foundation for a new house to be built by J. C. Meyer, on Curtin street. The house will be ready for occupancy about Feb. 1st., and from all indications will be a handsome and cozy home.

Life's often lost from little ills
Which might be saved by little pills.
That is to say if you suffer from biliousness dyspepsia or torpid liver use Dr. Pierce's Pleasant Pellets.

PRESBYTERIANS MEET.

Sessions of the Home Missionary Society at Huntingdon.

Huntingdon, Pa., September 25.—The Woman's Home Mission society of the presbytery of Huntingdon convened in the First Presbyterian church of Huntingdon at 2.30 o'clock this afternoon. It was opened by a devotional exercise by Miss Morrow, of Tyrone. The roll was calle by Mrs. A. M. Laporte, of Tyrone, and was responded to be quite a large number of delegates. Miss Kuhn, of Huntingdon, rendered a beautiful solo, which was followed by the report of Mrs. Dr. Freeman, of the freedmen's board, for ten years, Mrs. Dr. Smith, of Hollidaysburg, read a most able paper, urging more earnest effort in this cause and closing with an earnest appeal for the Master's sake to uphold this work. Miss Alice Moore sang the solo, "Angels ever bright and fair," in her usual pleasing manner.

Mrs. Putson, of New York, gave what he called "not an address," but a heart-talk, telling of the poor mountain whites of the south, their degradation and their immorality, and yet their earnest desire for education. She said they are directly of Scotch-Irish descent. She related several anecdotes illustrating their lire, telling how they live—whites and blacks together the whites being even lower in the social scale than the blacks. They allude "snuff sticks" without exception and huddle together indiscriminately. There is good staunch Scotch-Irish Presbyterian blood in them, which impels them to the desire for education. It would make your heart ache to see the hopeless, joyless expression of many of the faces, in fact, nearly all have a peculiar woe-begone look. They are very proud of their educational privileges and are infinitely superior to those foreigners who live in the slums of our cities. She appealed to us to care for them as brothers, for there is really a foundation to build on in giving them religion. Their number is almost incredible. She related many touching incidents of their desire for religion and education. After they have been in schools a short time they lose all the hopeless expression that seems born on their faces. They fully appreciate the prviilege of being able to get into these schools and generally do their very best, especially in the Asheville schools. It is a blessed work to which we as women are called—to educate the whites—a promising work because of the staple foundation on which to build.

The president, Miss Annie M. Irvine, of Hollidaysburg, announced that Dr. McEwan, of Pittsburg, would address the meeting this evening. Convention then adjourned to meet at 9 o'clock tomorrow morning.

The Husband Turns Up.

Indiana, Pa., Sept. 25.—Last evening David Hughes, formerly of Butler county, after an unexplained absence of thirty years, rejoined his family of wife, daughter and son, who have resided here about eight years. The reunion was most joyous. Hughes was wounded during the war, came home and married Miss M. P. Reed, of Kittanning. In 1864 he returned to the army and in 1865 was honorably discharged. Instead of returning home Hughes buried himself in the pineries of Wisconsin. His wife mourned him as dead. Hughes had never seen his son, now 30 years of age. Hughes has accumulated considerable wealth and says he is now too happy with his family to discuss the particulars of his long absence and continued silence.

Rising in the Air.

The new Reformed church at Centre Hall is gradually assuming shape, and a conception of its architectural beauty may already be admired. The carpenters, a big gang of them, have the frame work up and are going ahead with the rest of the building. It will be pushed right along, and no unnecessary delays will be made. The outer casting of our mountain blue stone, being erected by John Noll, of Bellefonte, and his masons, is climbing in the air, and will have a beautiful effect. It was the desire of the congregation to have the edifice completed in time for dedication on Christmas, but there is a tremendous amount of work to be done, and it will hardly be possible to dedicate at the time desired.

Pennsylvania Presbyterians.

The Synod of Pennsylvania, which convenes in the First Presbyterian church, of Butler, Oct. 17, is composed of 24 Presbyteries. There are 1,071 ministers, 1,184 churches, 4,582 elders and 197,491 communicants. The sunday school membership is 207,228. During the past year the various congregations contributed $216,910 to the support of home missions, $178,584 to foreign missions and $1,195,361 for congregational expenses. The aggregate of all contributions is $3,042,106. The Rev. Dr. J. P. Kumler, pastor of the East Liberty Presbyterian church, Pittsburg, is the moderator. The church at Butler has 672 members, the Rev. W. E. Oiler being pastor, and is the leading one in Butler Presbytery.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THERE is but one way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.*

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure White Lead

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

* If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

Send us a postal card and get our book on paints and color-card, free.

NATIONAL LEAD CO., New York.
Pittsburg Branch,
German National Bank Building, Pittsburg.

They Will Issue Bonds.

A special meeting of the stockholders and directors of the Central Pennsylvania Telephone and Supply Company, was held in Williamsport yesterday afternoon for the purpose of taking some action on the matter of funding the floating debt of the company. It was finally decided to authorize the placing of a mortgage on the property of the company to provide for the issuing of bonds to the amount of $120,000. This action was taken merely for the purpose of making the handling of the company's floating debt an easy matter.

The bonds are to be for thirty years with interest at six per cent. the company reserving the right to redeem them at any time after the expiration of five years.

These debts are the accumulation of the past four years, during which time the company has made giant strides in the direction of making their equipment and service as near perfect as it is possible to be. The territory embraces by it is almost entirely of the long distance equipment.

The affairs of the company are in a flourishing condition and the future outlook is most encouraging.

A Railroad in Trouble.

Houtzdale, Pa., Sept. 26.—The Altoona and Philipsburg connecting railroad, now in operation between Philipsburg and Ramey and in process of extension from Ramey to Janesville, has been seized by Sheriff Smith and will be exposed for sale on October 2.

The rolling stock, consisting of three engines, fifty freight cars, seven passenger coaches and three baggage cars, the rights of way secured by the company, together with all stocks of rails, ties and the interest of the company in the damage suit now pending with the Beech Creek railroad company, and the agreement for shipping facilities with the Tyrone and Clearfield branch of the Pennsylvania railroad, will be sold at the same time.

None of the property at the Altoona end of the line has been seized.

Y. M. C. A. Anniversary.

One week from next Sabbath evening the Y. M. C. A. of Bellefonte will hold its 26th anniversary in the Presbyterian and Methodist churches. Among the prominent speakers of the evening will be Rev. R. H. Gilbert, of Tyrone, who is one of the most forcible speakers to be found in the State. The other speakers will be of a like character and it is hoped that the business men will take interest enough in these meetings to turn out and hear what good is being done by this organization.

Arbor Day.

Dr. Schaeffer, superintendent of public instruction, has designated Friday, October 18, as Arbor day, and has prepared a proclamation urging those connected with the schools of the commonwealth to observe the day with appropriate exercises. Dr. Schaeffer says trees may be planted out of school hours, but a part of the time usually devoted to public readings or nature study can be profitably spent in exercises calculated to subserve the purpose of Arbor day.

Will Not Do It.

The Tyrone *Times* talkes right to the point. It says: We will not, hereafter, give any free notices to the people who hold entertainments, etc., for profit and take their job printing to other offices. We have a good right to demand a share of this work for our free notices, and here after parties intending to hold entertainments do not need to call here for free notice unless they intend giving us some of their work.

Allowances to Be Made.

Every column of a newspaper contains from 5,000 to 25 000 distinct pieces of metal, according to the size of the paper and the type. Displacement of any one of these means an error. Is it any wonder that errors sometimes occur. Still, some people think it is awful to see mistakes in a newspaper and when they find one they make it a point to tell the editor about it.

Pennsylvania at the Atlanta Exposition.

Pennsylvania will be well represented a the Atlanta Exposition. Lack of space ha compelled the curtailment of the great exhibit originally contemplated and partially arranged for by the various sub-committees of the Pennsylvania Commissions, but the 4,000 square reet of floor area allotted to the Keystone State by the Exposition management will be utilized to the very best advantage, and from present appearance the prediction that Pennsylvania will hold her own at Atlanta with any northern state seems amply justified.

The State Building, which, by special arrangement, occupies a commanding site on the grounds of the Piedmont Driving Club overlooking the main portion of the Exposition grounds, will be completed and ready for furnishment within a few days. The value of building and contents will be between $9,000 and $10,000. Owing to the comparative small cost of labor and materials, this will represent in results what an expenditure of three times the amount would have produced at the Chicago World's Fair.

The general style of the building will be Grecian Ionic, differing from any other building upon the grounds. Surrounded as it is, by terraces on the front and sides, and backed by the large trees of the Park, it will present a most attractive appearance. The details will be carried out in strict conformity to the style adopted, and will show much refinement. Immediately in front of the building is a massive stairway, with stone balustrades, leading up from the main promenade near the principal gateway of the Exposition grounds.

The building is entered through an open loggia, by means of a broad flight of steps, ornamented at the sides with carved lions on pedestals, and flanked at either side by covered porticos. The platform of this loggia will be raised some ten steps or more above the grade, and will be laid in red and white octagon tile. The entrance to the building proper will be through this loggia, into an entrance hall sixteen by twenty-eight feet, with large open fire place directly opposite the entrance doors At either end there will be a screen formed of large columns standing on a buttress, supporting the cornice above, surrounding the whole. At each end of the hall is a large room, nearly twenty feet square, the one at the left devoted to women, and that at the right to men. Opening off these rooms are suitable toilet rooms, well equipped with modern toilet conveniences, with marble floors and partitions. The rooms at the end of the hall will have dome ceiling.

The entrance hall will have open gallery, reached by means of the staircase at the back, which will also form a midway platform between the main floor and the roof garden. Opening off the main hall is also a commodious office for the use of the Commissioners, with an open fire place. A cloak room on the first floor will also add to the convenience of the guests. The entire interior of the building will be carried out in Classic style to match the exterior, and prove very effective. It is proposed to cover the deck of the roof with heavy canvass, and surround the parapet at the sides with flowers boxes. Ornamental standards at intervals will support the awning, and flag staffs over the columns of the main building will serve to fly the State flag and ornamental bannarettes. Upon the first floor, surrounding the colonade, pedestals have been prepared to receive ornamental flower boxes, which, when filled with many colored flowers and palms, together with the vines that may be trained over the structure will form a pleasing picture.

The interior of the building will have hard-wood parquetry flooring with finish of Georgia pine. The plasterwork of the interior will be tinted in color to harmonize well with the finish. Wisbach and electric lights, distributed throughout both the interior, and exterior will give brilliant lighting effect. The exterior of the building will be painted white. The building will be furnished, and the walls will be appropriately embellished with portraits of men distinguished in the history of Pennsylvania. A large pastel of Governor Hastings, said to be the best portrait extant of the present chief executive of the Commonwealth, will be hung in the reception hall.

The building is intended to serve as a club house for Pennsylvanians visiting the Exposition, and will be equipped with a post office for mail delivery, writing facilities, etc. There will be no exhibits in the building itself, but outside, in the open loggia, the world-famed Liberty Bell will be installed on October the 15th, with appropriate ceremonies, after a triumphant journey through the South from Philadelphia.

The main State exhibit will be in the Manufactures and Liberal Arts Building, instead of the Minerals and Forestry Building, as originally intended. A space of 770 square feet on the main floor of this building will be occupied by a display of the birds and mammals of the State. This will far surpass a similar display made at Chicago, and is said to be one of the finest exhibits of the kind ever prepared in America. Among the animals in the collection is the only Pennsylvania panther ever killed in the State and preserved by a taxidermist. [This is not the panther killed by Charles Watson.—Ed.]

Nov. 14th has been designated as Pennsylvania Day at the Exposition. Governor Hastings and his staff with a military escort will be present, accompanied by the entire Pennsylvania Commission and Ladies Auxiliary. The indications are that several thousand citizens of the Keystone State will also be on hand to participate in the ceremonies. A program for the observance of Pennsylvania Day is now being prepared. Pennsylvanians who contemplate a visit to the Atlanta Exposition should arrange, if possible, to be present on Pennsylvania Day. The probability that the dedication of the Pennsylvania monuments on the battlefield of Chickamaugua, within four hours ride of Atlanta, will take place on Nov. 12th or 13th, should be an additional incentive for patriotic Pennsylvanians to make a southern journey at that time.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy face of dyspeptice in every walk of life. It is our national disease, and nearly all complaints spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptic and pale thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the wasting and loss of flesh and we cure the disease. Do this with food.

The Shaker Digestive Cordial cotains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

A Cold in the Head

The quickest way to get rid of it—the simplest and surest—no bother, no trouble—is with

SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body indulged by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, others at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. Their victims are found in all stations of life:—The farm, the office, the workshop, the pulpit, the trades and the professions.

SYPHILIS EMISSIONS STRICTURE CURED

Wm. A. Walker of 16th Street says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

☞CURES GUARANTEED OR MONEY REFUNDED

IMPOTENCY VARICOCELE EMISSIONS CURED

Capt. Chas. Ferry says:—"I owe my life to Drs. K. & K. At 14 I learned a bad habit. At 21 I had all the symptoms of Seminal Weakness and Spermatorrhoea, Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their *New Method Treatment*. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. K. & K. are scientific specialists and I heartily recommend them."

☞*We treat and cure Varicocele, Emissions, Nervous Debility, Seminal Weakness, Gleet, Stricture, Syphilis, Unnatural Discharges, Self Abuse, Kidney and Bladder Diseases.*

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he endeavors to himself to solve, as far as such problems can be solved, questions which beset every well-do family: The Home—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

Moderato assai.

Then glide, glide, glide,..... o - ver the fro - zen tide,.....
..... On wings of steel, with nim - ble heel, We'll cross the lake so wide,.....
..... Then fly,..... fly,..... fly,..... Swift - ly as feath - ers light,.....
ff D.C. al fine
..... Ha, ha! ho, ho! a - way we go, To skate, to skate, to - night.....
f

Skating Song.

THE *St. James's Budget*, the weekly edition of the *St. James's Gazette*, London, one of the most conservative and authoritative of English journals, in its issue of July 27, ends its review of the Funk & Wagnalls Standard Dictionary, as follows:

"Nothing can be more complete than this, nothing more exhaustive. . . . The excellencies of this book are so bewildering that whatever might be said of them there would be as much remaining to be said. To say that it is perfect in form and scope is not extravagance of praise, and to say that it is the most valuable Dictionary of the English language is but to repeat the obvious. The Standard Dictionary should be the pride of literary America, as it is the admiration of literary England."

The English critics on all sides, show no hesitation in placing this new American Dictionary above all similar British works.

The *Leeds Mercury* in a review just published says:

"We have no hesitation in stating that the Funk & Wagnalls Standard Dictionary is the best and most complete Dictionary of the English Language now in existence."

John Bull can be generously fair when he tries to be, but he cannot help but show just a little natural sensitiveness at being constrained to look elsewhere for a Dictionary of his own language: 'Strange,' the *London Literary World* exclaims in speaking of the Standard Dictionary, "that the Queen's English should find its chief autocrats in the country of the President."

First Action—Second Action—Third Action.

So said the wise Athenian. We shall be wise to follow his advice in many matters; in none more so than in grappling with a cold or with dyspepsia; or in seeking relief from consumption in its earlier stages. It is absolutely useless to sit down and bemoan our bad fortune. We must act—act—act. The first and most imperative action necessary is to procure a bottle of Dr. Pierce's Golden Medical Discovery. The second action will be to use it. The third action will naturally follow—we shall proclaim abroad its virtues.

Sardis, Big Stone Co., Minn.

R. V. PIERCE, M. D., Buffalo, N. Y.: Dear Sir—Having felt it a duty to write of the good I received by taking your medicine, I now would say, that one year ago I was given up by my family physician and friends; all said I must die. My lungs were badly affected, and body reduced to a skeleton. My people commenced to give me your "Medical Discovery," and I soon began to mend. It was not long before I became well enough to take charge of my household duties again.

I owe my recovery to Dr. Pierce's Golden Medical Discovery. Respectfully,
MIRA MILLS.

May Remedy a Great Evil.

Harrisburg, Sept. 25.—To morrow Gov. Hastings will go over the department reports printed during the last year for the the purpose of correcting the alleged abuses of the state printer. Complaints have been so frequent regarding poor quality of work and unnecessary delays that they cannot longer be ignored. Some of the work may be ordered elsewhere, in which event the state printer will have to foot the bills.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO. TOLEDO, O.

Relief In Six Hours.

Distressing Kidney and Bladder disease elieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain n the bladder, kidneys, back and every part of the urinary passages in male or fema e. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your

Tariff Facts

For Speakers and Students, our Defender Document No.9 (160 pages), has just been issued by The American Protective Tariff League. This is perhaps the most valuable document ever published by tuis. organization, and includes full information as to the effect of threatend Free-Trade and the present to Tariff Law. Order by number only. Sent to any address for ten cents. Address Wilbur F. Wakeman, Gen. Sec., 135 West 23d Street, New York

Did He Fill His Orders?

On Saturday morning County Treasurer John Q. Miles started out squirrel hunting and before leaving took quite a number of orders for squirrels from bystanders at the P. R. R. station. Now Mr. Miles claims he has filled all orders, but the people from whom he received his orders say they have not seen the squirrels. No one knows just when the hunter got home, or whether he secured any game at all.

—An exchange says a cigarette is a little roll of paper, tobacco and drugs, with a small fire at one end and a large fool at the other. Some of its chief enjoyments are condensed nightmare, fits, cancers of the lips and stomach, spinal meningitis, softening of the brain, funeral processions and families shrouded in gloom. There are plenty of subjects left, however, who are perfectly willing to undergo the trials of such a nature for the sake of putting on a certain amount of style.

Mrs. Lease says she if filled with scorn. Heres she differs with some of the politicians of the sterner sex They are oftener filled with something else.

ROBBERS ONLY PARTLY SUCCESSFUL.

Parties Who Are Suspected of Late Robberies Being Watched.

A case of attempted robbery which happened in Bellefonte last week has just come to light. It seems that for several months the citizens of this place have been awakened at all hours of the night by robbers attempting to break in their houses. On Friday night they tried to effect an entrance into the residence of Col. J. L. Spangler, on Allegheny street, but were frightened away by the colored man who heard the noise. Several shots were fired after the fleeing robbers but they evidently escaped as when Spanglers made their appearance with lights, no trace of the robbers could be found, with the exception of large foot prints around the house. The would-be robbers evidently knew that Mr. and Mrs. Spangler were not at home at the time, and had they not been discovered when they were they might have made a successful haul.

Another burglary was committed on Sunday at the residence of Mr. J. W. Gephart, on Curtin street. While Mr. Gephart and his family were at church, some miscreant broke into the kitchen and appropriated a good Sunday dinner which was to be eaten by the family after church. The strangest part of this affair is that the doors were all locked up tight before the viands were stolen, and that is the way they were found when the family come home. It is very evident that the burglars had a key by which they gained an entrance or they could not have gotten in so easily. Strong suspicion is laid at the door of some people, and it is expected that they will soon be brought to justice.

The police should be more vigilant at night and keep an eye on suspicious characters who have been seen loitering about town all hours of the night.

IF reports are trustworthy Colorado will soon become one of the greatest gold mining camps in the world. Cripple Creek mines are panning out richly, a recent estimate by an expert placing the yield for this year at $12,000,000. Our enthusiast expresses the belief that the Colorado mines are ahead even of those of South Africa. They may be self-interest or too much ardor in these statements, but there is no doubt that Colorado and the other mining States of the West can be made to yield a large amount of gold if the mines are properly worked. An output of $30,000,000 from California and Colorado this year would not be surprising, and if the price of silver continues low this sum may be continued for some years and even increased. The ease with which silver can be mined has discouraged gold mining for years, but with changed conditions a revival of interest in gold mining is taking place.

JUST before the devoted young African explorer, E. J. Glave, died at Matadi on the Congo River, he requested the missionaries who attended him to send his papers to *The Century Magazine*. They have recently arrived in this country in safety, and are found to consist of copious notes and journals and abundant photographic material, Mr. Glave crossed Africa in the interest of this magazine to study the skive-trade, and was about to embark for home in order to put his conclusions into shape when he was stricken down by the deadly African fever. It is believed, however, that the Century can obtain two or three striking articles from the material that cost Glave his life to gather. There will appear during the coming year, and a paper on Africa has also been promised by H. M. Stanley, M. P. Glave was one of Stanley's most trusted lieutenants in the settlement of the Congo stations, and the latter has paid emphatic tribute to Glave's ability and character.

A Big Yield.

We notice that many farmers are boasting of the large yield of potatoes this year, but we doubt if any of them can excell per acre and average size the crop of Mr. Philip Crider raised on his farm near Howard. From one patch of about two acres the yield being nearly five hundred bushels, there being none smaller than one half pound in weight. They are of a blue variety the name of which Mr. Crider could not remember. In cultivating them the ground was made as mellow as an ash heap and no weeds were suffered to grow among them. He prepared the ground by sowing it in rye in the fall and then plowing it under in the spring before planting, hence, it is claimed, was the reason for the prolific yield and the size of the tubers.

APPROPRIATE to the election season is an article written by Mr. E. J. McDermott, of Louisville, for the Oct. number of "The Century," entitled "Fun on the Stump: Humors of Political Campaigning in Kentucky." Mr. McDermott has gathered many anecdotes of amusing experiences at the polls, but he laments the decline is by no means up to the old-time standard in Kentucky.

Durrant's Present Hope.

San Francisco, Sept. 29.—Not one of Durrant's 75 classmates will say Durrant attended Dr. Cheney's lecture on April 8, the day Blanche Lamont, the girl Durrant is charged with murdering disappeared.

Durrant's hopes now rests on the ability of his lawyers to create a doubt in the mind of a juror so as to secure a disagreement.

RUIN AND MISERY

WHAT WILL BECOME OF THE YOUNG MEN OF THE DAY?

Cigarette smoking is one of the evils which is fast increasing among the young men of the period. It is an age of nervousness; nervous excitement, nervous weakness and debility is the growing malady of the day. Minds are over-burdened in school, the pleasures of social life follow business worry; intemperance, sexual excesses or abuses over excite the already enfeebled nerves and result in exhausting diseases or drains upon the nervous system.

It's a drag and a handicap to every young man to be a sufferer from nervous debility or weakness, low spirits, irritable temper, impaired memory, loss of willpower, and the thousand and one derangements of mind and body that result from pernicious habits often contracted through ignorance of nature's laws. The wreck of constitution, weakened vitality and manly power, following such habits would be a sorry ending to life in this splendid age of learning and labor. It will fast become an age of unsettled brains and shattered nerves unless our young men *know themselves*.

To reach, re-claim and restore such unfortunates to health and happiness, is the aim of the publishers of a book of 136 pages, written in plain but chaste language, on the nature, symptoms and curability, by home-treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of this notice with ten cents in stamps, for postage. Address, World's Dispensary Medical Association, Buffalo, N. Y.

For more than a quarter of a century physicians connected with this widely celebrated Institution have made the treatment of the diseases hinted at above their specialty. Thousands have consulted them by letter and received advice and medicines which have resulted in permanent cures.

Sufferers from premature old age, or loss of power, will find much of interest in the book above mentioned.

Where is the Boom?

From the appearance of Monday's Williamsport *Gazette & Bulletin*, and the Altoona *Times*, one would be led to believe that Bellefonte is experiencing such a boom as she never experienced before. Such may be the case, but if it is, it is not noticeable except to perhaps one or two. It is the regret of the citizens that the stated boom has not struck Bellefonte and made her industries so busy that they are compelled to be going night and day to fill the orders. Yesterday was a good day to talk boom in Bellefonte, as all the indications were on the surface. Had anybody walked along Allegheny street about 2 o'clock, they could have had the whole street to themselves, because there was no one else out to bother them. It is true business is picking up, but then it is not true that our merchants are rushed to their fullest capacity for doing business. When a man can take a bath on the Court House diamond without anyone seeing him in the middle of the afternoon, it is time to stop talking boom; and such was the case yesterday. There is no sense in sending ficticious news to city papers about Bellefonte's "boom," when it is all a myth. It is more injurious to the town than beneficial, as strangers come here and expect great things, and when they arrive they find they have been misinformed and go away disgusted. We want to see Bellefonte boom but we will not say it is booming when it is not.

Our Public Schools.

Never before probably in the history of the county have our public schools been in so flourishing a condition as they are at present. Almost every room is filled with bright and happy faces and would one walk out Allegheny or up Bishop street about 4 o'clock in the afternoon he would see one of the prettiest sights imginable. At this hour school is just dismising for the day and hundreds of boys and girls come running out happy because the day's work is at an end. For some moments the scene is one of apparent confusion as they are hurrying this way and that, each one anxious to get home before the other. For several squares you can hear their merry shouts as they go trudging home; some of the little codgers affording much amusement as they carry their book-satchels on their backs feeling as important as if they were just finishing a college course. At home a warm supper awaits them and soon they are doing justice to the good things prepared by their mothers. It is the happiest time of a person's life, and it is not fully realized that it is such, until the school days are at an end.

In the Bellefonte schools, an able corps of Instructors have charge of the children under the careful direction of Supt. D. O Etters.

WASHINGTON LETTER.

Washington, Sept. 23, 1895.

From our Regular Correspondent.)

Washington, D. C. Sept. 30th, 1895

The democratic cackling over the September Treasury statement is about as silly a thing as a lot of grown men could be guilty of, when considered in connection with the actual facts, known to all those who are conversant with the situation, and easily accessible to everybody. During the month of September the receipts of the government were slightly in excess of the expenditures, but that does not mean, as some ill-informed democrats are saying, that the receipts of the government have grown to be as large as its expenditures. Not at all. The explanation, instead of being favorable to the administration, is decidedly tne contrary. The heaviest payments of the government are made in the quarters beginning July 1, Oct. 1, Jan. 1 and April 1, consequently the smallest expenditures are for the last months of the quarters—June, September, December and March. This is so to a large extent under all administrations, but it has been particularly so under the present, because of the system of withholding payments during the last half of the quarter for the purpose of misleading the country as to the state of the public finances, which has been such a marked feature of the Cleveland regime. Last April the receipts, under this system, exceeded the expenditures. It was the same in June, the excess for that month being about $2,000,000 more than for September, and it will doubtless be the same for December; but all the while that annual deficit has been steedily climbing, and it will continue to climb until the republican Congress taxes hold and passes the legislation necessary to increane the revenues of the government through a revision of the democratic tariff law, which democrate Treasury officials openly acknowledge will never provide all the money needed to run the government.

When you wish to know the actual condition of the U. S. Treasury do not take the figures specially juggled for any single month, but take them for an entire year. For instance, on Aug. 31, last, the democratic tariff law had been in effect for one year. Now, what sort of a showing was made during that year? Here are the figures made by by democratic officials The total receipts were $295,061,022, and the total expenditures $359,026,332. Now a very simple example in subtraction will show that the deficit for the year was $63,965,310, a sum nearly equal to what was received from that foreign syndicate for the last issue of bonds. This isn't partisan politics, but a statement of cold, hard facts. That these facts demonstrate the incapacity of the democratic party to successfully administer the affairs of the government is true, but that is only so much the worse for the democratic party, which is responsiple for these disagreeable facts.

Speaking of bond issues, any one can easily ascertain by comparison of the available cash in the Treasury just before the first bond issue with the amount of available cash on hand to-day that the three bond issues, while ostensibly made to replenish the gold reserve, were in reality made to obtain the money to meet the deficit in the receipts of the Treasury brought about by democratic misgovernment and attempts to put the country upon a free trade basis. It is no exaggeration to say that had the democrats when they came into power officially announced their intention to let the McKinley tariff alone, there would have been no bond issues and no panic.

Although Mr. Cleveland has known rom the day that Gen. Schofield became the Commander of the army that he would retire under the age limitation yesterday (September 29th, 1895) he has allowed him to retire without designating his successor, and until he does the duties of Commander of the Army will devolve upon Secretary Lamont, who knows less about handling troops than a newly appointed cadet to West Point. Gen. Nelson A. Miles, as the Senior Major General should be the Commander of the Army, but it is said that Mr. Cleveland does not wish him to have it because he believes him to be a republican, and that he even contemplates leaving the position vacant in order to deprive Gen. Miles the honor of holding it.

Every day something turns up to accentuate the desperate condition of Senator Gorman and his ticket. The latest is the refusal of his registration officers to allow a number of republicans who own homes, valued all the way from $1,000 to $50,000, in Maryland, but do business in Washington, to register in that state, A test case will be taken to the courts but as Gorman controls the courts largely there isn't much hope of accomplishing anything further than putting them on record.

TO CONSUMPTIVES.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease **Consumption**, is anxious to make known to his fellow sufferers the means of cure. To those who desire it he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for **Consumption, Asthma, Catarrh, Bronchitis** and all throat and lung maladies. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address,

REV. EDWARD A. WILSON,
9-5-1y Brooklyn, New York,

It Should be Remedied.

The ordinance issue by the council states that a man shall be employed to clean up the garbage which always remains after the wagons have left the diamond on market days. Whether or not a man has been employed to do this work we do not know, but the garbage is never removed until long after the wagons have gone and this week piles of decayed vegetables were still lying on the court house square almost twenty four hours after market closed. This should not be allowed by the health officers as offensive odors arise from such things that are not only disgusting to passers by but might perhaps be injurious to the health of the people.

What Everybody Says About Brandy.

That the Wines and Brandy of the Speer N. J. Wine Co., Passaic, N. J. are leading all others in public favor. Their Wines are unexcelled for delicacy of flavor, and are pronounced by the most capable judges to be the very best in the market. For pure grape Brandy their Old Climax, vintage of 1876, is admittedly the best to be had and more reliable than French Brandies. Druggists sell it.

Clean Out the Gutters.

One of the best things that everybody could possibly do just now would be to clean out the gutters in front of their residences. If this is done now no trouble will be experienced, but if left until cold weather comes it will be found to be very difficult. Where gutters are full of debris it is almost impossible to keep snow out of them and the result is that large snow banks, covering half of the pavements are a menace during the whole winter.

A New View of Life.

It is surprising how often the troubles of this life spring from indigestion. And more surprising how few people know it. You say "I'm blue," or "My head feels queer," or "I can t sleep," or "Everything frets me." Nine times in ten indigestion is at the bottom of all your miseries, and a box of Ripans Tabules would give you an entirely new view of life.

DR. KILMER & Co., BINGHAMTON, N. Y.

Can Vote for Seven.

Harrisburg, Pa., Oct. 1.—Attorney M. E. Olmsted of this city is of the opinion that each qualified elector has the constitutional right to vote for seven candidates for judge of the superior court at the Nov election, and that if he shall choose to exercise that right his ballot cannot lawfully be thrown out because containing more than six names. Mr. Olmsted's opinion is given after a careful investigation into the matter and the suggestion of one of his clients who is interested in a candidate for superior court judge.

Mr. Olmsted holds that the constitutional provision as to the election of all judges except those of the supreme court, is founded upon the principle that the majority shall in every case rule. The act of 1895, creating the superior court, is in conflict with the constitution, in that it is an attempt to deprive a majority of the qualified voters of the priyilege of participating in the election of the seventh superior court judge. No matter how wise the principle of minority representation may be, it cannot be enforced if contrary to the letter and spirit of the Constitution, and if, as is apparently the case, the act of 1895 seeks to qualify, limit and restrain the right of suffrage, which the Constitution has, in plain terms, conferred without anylimitation whatever, then to that extent the act of 1895 must fall.

To Fight Tammany.

New York, Oct. 1.—A movement was put on foot to revive the committee of seventy to create a similar body to take the steps necessary to bring about a union of all anti-Tammany forces. This movement is inspired by the action of the good government clubs' convention last night in nominating a ticket against the advices of a majority of the executive committee. The chances for success were considered good by those who took the initiative. Dr. C. H. Parkhurst has telegraphed as follows to Charles Stewart Smith, who is at present at Stamford, Conn.:

"Our only chance is to hold a mass meeting and create a new committee of seventy. Last night's inconsiderate and inharmonious action cannot but fall dead."

Dr. Parkhurst is confident that a combination of anti-Tammany organizations and electors is possible. He attributes the action of last night to "youthful enthusiasm" and "excessive zeal." He says that the good government clubs, while claiming to be the successors of the committee of seventy, have not taken up the duties and purposes of the committee, and that therefore the only thing to do is to recreate the committee.

Tobacco Trust Hit Hard.

Winston, N. C., Oct. 1.—Judge Simonton, of the United States district court today dismissed the suit brought by the Consaick Machine Company and American Tobacco Company against W. F. Smith & Son, and other Winston cigarette manufacturers. The plaintiffs asked for an injunction against the Winston manufacturers from using Briggs' machines, owned and manufactured by the Winston Cigarette Machine Company, claiming that said machines were an infringement on the Bonsaick patent. Judge Simonton places the cost, which will be some $25,000, upon the plaintiffs. This is regarded as a heavy blow to the Tobacco trust.

Got a Verdict of $32,000.

Trenton, N. J., Oct. 1.—Mrs. Kate E. Purinton, whose husband was killed in the Meadow accident on the Delaware, Lackawanna and Western railroad eighteen months ago, obtained a verdict for $32,000 in the federal court to-day. She sued the railroad company for $30,000. Her husband was 35 years old and at the time of his death was earning $4,800 per year. The jury took his age and occupation into account when making up the amount of damages for the widow.

Ore Miners Advanced.

Ironwood, Mich., Oct. 1.—After a three days' strike the demands of the miners and others employed at the Brotherton mine, at Wakefield, for higher wages have been granted. The miners struck for $1.65 a day, company account. The mines which have been idle for years are opening up every week, and prospects of range towns were never better. It is confidently expected that Gogebic Range ores will command from $4 to $4.50 a ton next season.

Important to Justices of the Peace.

Justices of the peace of our county will take notice that by Act of Assembly of May 1, 1893, the following requirements of the act relating to marriage licenses go into effect on the first day of October, 1895.

That no person shall be joined in marriage until a license shall be obtained from the clerk, wherein either of the parties reside, or in the county where the marriage is performed, provided, that one or both of the applicants shall be identified to the satisfaction of the clerk applied to for such license. A license so issued shall authorize the marriage ceremony to be performed in any county of the Commonwealth. That by the provisions of the above act every justice executing applications must have one or both parties thereto identified before sending to the clerk of the court, and upon the said application endorsed the word, identified, so that the clerk can issue said license, being satisfied of the identity of the party or parties as by the application executed by them.

Tour to the South via the Pennsylvania Railroad.

The last of the Pennsylvania Railroad Company's very attractive early Autumn tours to the South will start from New York in a special train of parlor cars on October 8.

The tour covers a period of ten days, and includes the battlefield of Gettysburg, picturesque Blue Mountain, Luray Caverns, the Natural Bridge, Grottoes of the Shenandoah, the cities of Richmond and Washington, and Mt. Vernon.

The round trip rate, including all necessary expenses, is $55 from New York, $53 from Philadelphia, and proportionate rates from other points.

For detailed itinerary apply to Ticket Agents or to Tourist Agent, 1196 Broadway, New York, or Room 411, Broad Street Station, Philadelphia.

Distrustful of the South.

West Chester, Pa., Sept. 26.—Department Commander H. H. Cummings, of the Pennsylvania Grand Army, made a rather startling address today before the reunion of Chester county veterans. He said he was just home from the reunion at Chattanooga, and from what he heard and saw there he didn't think the results of the war were over by any means. Commander Cummings declared that as long as the South teaches its children that its cause was righteous the people there will not be thorough patriots.

Will Remain Closed.

Atlanta, Ga., Sept. 30.—The question of Sunday opening of the exposition was settled by an overwhelming vote at the directors' meeting this afternoon. H. H. Cabaniss, manager of the Atlanta Journal, moved that the grounds be opened and the midway closed on Sundays. Capt. J. W. English moved that the whole matter be laid on the table. This was adopted by an overwhelming vote. It is not believed that any further attempt will be made to open the grounds on Sunday.

Whipping Post Revived.

Washington, D. C., Sept. 30—Immediately preceeding the discharge of the grand jury here to-day by Judge Bradley, a written recommendation was submitted to the court favoring the establishment of the whipping post in the District of Columbia for the punishment of wife beaters and other petty criminals. It was signed by the foreman and fifteen jurymen.

Judge Bradley commented briefly on the recommendation and said that he thought such a method of punishment would be productive of good results.

Six Men Killed.

Independence, Mo., Sept. 30.—Six lives were crushed out to-day at a qurary eight miles out from here by the premature exploding of a blast. The victims are M. McTiernan, contractor; Con Pruitt, farfarmer, 25 years old; D. Larkin, quarryman; Antonio Carlin, quaryman; Pat Welsh, quarryman; T. Ferguson, a boy, 9 years old.

The men were crushed under a huge rock and instantly killed. The boy lived a few hours.

Rifle Practise Almost Over.

The annual national guard rifle practise is about finished by the members of Company B, 5th Reg., which is located at this place. Some of the members made very good showings for which they deserve great credit. It is no fun to have your shoulder bruised so bad that you think you have passed through a cyclone. Every gold bar received is well earned, and those who wear them without having come by them honestly should be exposed.

A Bellefonter Succeding.

A large drug house has been established in Baltimore, the name of which is the Bayard Drug Co. The senior partner of the firm is Walter W. Bayard formerly of Bellefonte, but who for several years has been located in Pittsburg. Walter has already made a name for himself in the drug business and we hope his new venture will prove a big success.

Organizing For the Season.

In past years the Bellefonte Academy has always had a strong foot ball team and from present indications this season wil be no different. Some good material has been obtained and the practice games show that the team is going to be a winning one. It is very probable that several games will be played with Williamsport, Lock Haven and other places.

Hip Disease

Results from a scrofulous and impure condition of the blood, and it is cured by Hood's Sarsaparilla the great blood purifier. The father of a Philadelphia girl writes this:

"We gave Hood's Sarsaparilla to our little girl, who had symptoms of hip disease. She could not put her foot down on the floor when we commenced giving her the medicine, but in a short time she was able to get off the couch and to reach her playthings. Since then she has steadily improved, thanks to Hood's Sarsaparilla, and her general health is all that could be desired. When any of the other children are not well we give them

Hood's Sarsaparilla

and we earnestly recommend it to others."
E. BERRY, 203 Richmond St., Philadelphia.

Hood's Pills easy to buy, easy to take easy in effect. 25 cents.

To the Memory of Hunter Swartz.

The beautiful bud has vanished
Before it was yet full bloom,
Now, how black and bare is the spot
Where beauty and sweetness had grown.
We look on the place made vacant,
And hardly can realize
That God takes earth's fairest flowers
And plants them in Paradise.

Stilled are the voices of gladness,
Hushed are the tones of mirth,
Silent with pain and wonderment,
We gaze on the still, cold earth.
But the Ruler of Earth and Heaven,
The merciful, great and wise,
Has only transplanted the flower.
'Tis blooming in Paradise.

The lily, so pure and spotless.
He took in his infinite love,
And carried it tenderly homeward
To brighten his garden, above.
Not dead is the vanished blossom
We look for with weeping eyes,
It lives in God's beautiful garden—
The garden of Paradise.

M. V. T.

A Pyramid of Stone.

Prof. C. B. Alexander, of the State College, spent a week recently in Mifflin county collecting specimens of the different stratas of stone. These specimens are to shipped to the college, where under the direction of the Prof. M. C. Ihlseng they will be placed in a pyramid with other stones from various parts of Pennsylvania and surrounding states. The stones will be placed in order of their geologic strata and when completed the pyramid will be over thirty feet in height. The different specimens are being selected with great care and the obelisk with its many colored stones will certainly form a very beautiful and instructive object.

What Got the Most?

A Bishop street girl engaged to two young men has been kissed 113 times during the summer, but she assured a friend that she had not favored one young man above another. The friend declared that 113 kisses could not be evenly divided between the two men. Thereupon the summer girl explained that there were certain other young men to whom she was not engaged. Supposing there were three others strike an average.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Sold by Druggists, 75c.

Asleep Eight Months.

Cleveland, O., Oct. 1.—P. Crawford, 22 years old a former mail messenger of New York, has been asleep, with the exception of a few hours, for the last seven or eight months. His case is the most remarkable one that has ever come under the observation of Cleveland physicians. Nearly every doctor in the city and not a few from other cities have viewed what bids fair to be the most remarkable case of catalepsy ever known.

Are Weary of Life.

Madrid, Oct. 1.—Volunteers to the number of 2,200 men presented themselves today for service in the island of Cuba.

The chief of the Cuban reform party had an audience to-day with Senor Castellanos, the minister of the colonies, to whom he renewed, on behalf of the Reformists, his assurance of their patriotism and assistance in settling the insurrection in Cuba.

To Start a Euchre Club.

A rumor is afloat that some of the ladies of Bellefonte are going to start a progressive euchre club, to play a series of games this winter. Many interesting games were played last winter and from all indications the coming season will be a very enjoyable one.

In Other Counties.

A few mornings ago John McElhaney, of Brush Valley township, Indiana county fell down the cellar stairs of his house and was severely injured.

The large barn of William Pritchards, a short distance northwest of Clearfield, was destroyed by fire Tuesday evening, together with part of the contents.

John S. Johnson, of Antis township, Indiana county, expects to pack 700 bushels of winter apples. This will bring his total crop up to not less than 2,000 bushels.

Mr. and Mrs. John M. Chase, of Clearfield celebrated their golden wedding September 19, surrounded by some 200 invited guests.

Glen Campbell had its first robbery a few nights ago, when thieves broke open the drug store of William T. Spangler. Their plunder amounted to $100, which was in a cash box Mr. Spangler had forgotten to take along home in the evening.

The shipment of coal over the Huntingdon and Broad Top railroad for the week ending September 21 amounted to 52,377 tons, an increase of 6,246 tons over the corresponding week of 1894.

The sales of peaches from the Woods orchard, a mile below Lewistown, amounted to about a thousand baskets up to Tuesday.

A Commonplace Life.

The trouble is with you, my dear girl, that you count little things as of no worth. Where we have one great renunciation to make we have a thousand little ones, and life, which you are inclined to call commonplace, is not so, for every day can be made rich in beautiful deeds. God, who is just, is merciful and when temptation comes to you, even if you fail, He remembers that you tried to do what was right, and so is tender in His thought of you. There is not one of us who achieves, even for one day, what we long to. But, my dear, we can always try for it. We can be ready for the trouble that is before us and equip ourselves by prayer and good thoughts so that we can meet it bravely, and, possibly, overcome it. Of course, that is what we wish to do, and yet if we are not strong enough, if we fall by the wayside, we must get up and try again and keep on trying. That, in itself, will give us strength. And as the years go on and youth belongs to the past, it will always, because of this trying, be easier to do which passeth all understanding."—Ruth Ashmore in October *Ladies' Home Journal.*

Don't Miss Hearing Him.

Mr. B. F. Jacobs, Chairman of the Executive Committee of the International Sunday School Association, is one of the attractive names on the program of the Pennsylvania State Sabbath School Association Convention at Williamsport, October 8, 9 and 10. Mr. Jacobs is exceedingly popular as a speaker and is in great demand for gatherings like this. It is well worth traveling a thousand miles to hear this. He will address the convention in the forenoon of October 9, and conduct a conference for County Secretaries on the morning of October 10. Every County Secretary in the State ought to be on hand to receive the advantage of his experience and teaching.

Columbus House Not Sold.

The Centre county papers this week state that John Brown, of Bellefonte, and Samuel Shaeffer, of Madisonburg, have purchased the Columbus hotel, of this city. Proprietor Sheebe, of the Columbus, says there is no truth in the report.—*L. H. Democrat.*

Typhoid Fever.

✱ Rapid Convalescence

is experienced in this slow and dangerous disease, when the patient's strength is properly maintained until the crisis is passed. Don't force the stomach and other organs already weakened by sickness to wear themselves out in a vain attempt to obtain nourishment from improper foods. Feed the sufferer with milk and

Bovinine

that great food product. It is absorbed immediately into the system with the least possible effort on the part of the various organs. Besides making new flesh and blood, it strengthens all of the vital centres, enabling them to expel existing poisons. It is a germicide, and antidotes the fever microbes. In addition, its beneficial effect on the ulcerated condition of the bowels, so common in this disorder, is marvellous.

Children Cry for Pitcher's Castoria.

A Good Attraction.

On Tuesday evening the attraction at the Opera House was the "Stowaway." They were greeted by a fairly large house but unfortunately not as appreciative far as the crowd in the gallery was concerned. The performance was good and was well played by all the characters. Fred Hardy as Tom Ingliss, and John F. Birch as the "Stowaway" were fine, while Edwin Wayne as Charles Etherington and Miss Dob Karall as "chuckey" the newsboy took their parts to perfection. Should the "Stowaway" ever return, it is to be hoped they will be greeted with a large house During the whole performance the gallery gods kept up a chatter that was disgraceful and should not have been allowed, especially when two policemen were in the gallery to prevent such trouble. It was a great hindrance to the actors, and it is to be hoped it will not be repeated.

An Autumn Arbor Day.

Trees can be as safely transplanted in the Fall as in the Spring, and as both the Spring Arbor Days this year were somewhat profit, the first being too cold and the second rather late, it is hoped that Superintendent Schaeffer's Fall Arbor Day will have a wide observance. The hope of the forestry movement lies with the children. The mass of the adult population have so long held trees in light esteem that they cannot now be convinced of their value except as potential lumber. The school children are being taught better than this and in pursuance of this instruction the State Superintendent of Public Schools appoints the 18th of Oct. as the Fall Arbor Day, the third in the year in this State devoted to the planting of trees and the giving of information concerning trees and tree culture.

Many thousand trees have been planted in this State since the inauguration and under the stimulus of Special Arbor Days. Professor Schaeffer testifies that these Arbor Days awaken the interest of the school children in the study of nature and open their eyes to its beauties. It has drawn attention to the ill effects which follow the criminal waste of timber and to the importance of covering with a new growth of trees all tracts of land which are otherwise useless. Get the children interested in tree preservation and tree planting and the deforestation of the State now in progress will stop when these children become voters if it does not before.

If it is a reasonably fair day there will be many trees planted by the pupils of our rural schools on the 18th of Oct. Let us hope that these trees will be cared for afterwards and will be worth caring for. The common craving for rapid growing but short lived trees ought to be resisted. Professor Sargent, who is perhaps the leading tree authority in the United States, recommends for street shade planting the red oak, tulip poplar, sugar maple, morning maple, oriental plane, three thorned acacia, Kentucky coffee tree and the female ailanthus. Chief Fernow would add to this list the American elm, scarlet oak, yellow oak, white oak, linden and liquid amber. For field or lawn planting the list may be extended almost indefinitely, as the forest growth of our country abounds in beautiful species of trees, while most of the European varieties have been introduced and acclimated here.

To the Penitentiary.

Jacob Aikey, who was associated with George Spangler in the stealing and killing of a steer belonging to Saul Haagen, and for whom a bench warrant was issued yesterday, was brought before Judge Mayer this morning. After hearing his statement the court sentenced Aikey to thirteen months' imprisonment in the western penitentiary. The conviction of Spangler is cause for rejoicing among the people at Eagleville and vicinity. He has been on trial for several offenses in the Centre county court, but always succeeded in proving an alibi, but in this instance the case was so well worked up by Chief Keller that conviction was assured. Immediately after Aikey received his sentence, Sheriff Hoover, with Homer Ross as deputy, left on the Bald Eagle valley railroad for the western penitentiary, having in charge John Hornbecker, Spangler and Aikey. Hornbecker's sentence is two years, while the latter two are for thirteen months each.

Yesterday Deputy Sheriff Harry Hoover took Robert Frankenfield and Edward Bennet to the Huntingdon reformatory.—L. H. *Democrat.*

The Irish Declaration.

The Irish American convention at Chicago proved the falsity of reports that it would indorse the methods of dynamite and assassination, by confining its measures for obtaining independence to the methods approved by the laws and usages of civilized nations.

Beyond that the significance of the convention is that it represents the opinion that the attempt to secure Home Rule has finally failed and contemplates the preparation of means to aid a military struggle for Irish independence when the occasion arises. The qualification is a vital one and really reduces the import of the declaration to very slight proportions.

When the Home Rule measure has passed the most important branch of the British Legislature, and when no one can tell how soon either English party may be forced to take it up again by political exigencies, it is safe to say that before the occasion for a successful insurrection can arise Home Rule will be an accomplished fact.

Towanda Storm Swept.

Wilkesbarre, Pa., Sept. 27.—A terrific storm burst visited the town of Towanda yesterday afternoon, causing great excitement among the residents of the place. It came with the force of a cyclone, accompanied with severe thunder and lightning. Four horses were killed outright by a bolt and a number were stunned and badly injured. At the fair grounds many people were knocked down and all escaped injury but two men, who were seriously burned. Dozens of women fainted and it is miraculous that the striking bolt in the midst of hundreds of people should not have killed someone.

A Good Crop.

Chestnuts on the mountains are ripening and in the low and open places the burrs have been nipped by the frost and cracked open. The next heavy frost will do the business, and the crop will be ready for gathering. They are very plenty, and very wormy, too.

A CASE OF GAS LEAKS.

Yesterday Was a Quiet Day in the Famous Durant Case.

San Francisco, Sept. 27.—To day was the tamest session of the Durant case. It was expected that the defense would continue in its efforts to show that Durant was at the college on the afternoon of the murder, but instead it switched off to technical matters connected with the church. This was in consequence a tame day of prosaic points about marks on the church tower door and the sun burners where Durant alleges he was repairing the electric vibrator. This was not without its use in the case and in that portion relating to the sun burners the defense showed that there was defective ventilation around them and that their theory as to gas having overcome Durant on the afternoon of the murder was not altogether untenable.

E. W. Carpenter, a gas fitter, who examined the sun burners at the request of the defense, testified that the ventilators above them afforded no draught and that he had found the damper in one of them closed. His investigation showed that a person in the position Durant alleges he was in fixing the aparatus connected with the sun burners might have been over come by an escape of gas. The gas supply connected with the burners was turned on at a point 75 feet from the sun burners and on the floor below them. Any one fixing the aparatus, if alone, as Durant is alleged to have been, would, he said, have had to turn on the gas before ascending to the burners. This Durant alleges he did, but there is no evidence that he turned the gas off again. During the time Organist King was abeent for the bromo-seltzer, he says, he was lying down on a platform in the Sunday school room and he did not turn the gas off after that, according to the statement of King.

R. Martland, an electrician, another witness who visited the scene of the sun burners in the interest of the defense, produced drawings of the sun burners and a duplicate of the electrical vibrator used in one of them to light the gas. His testimony in connection with this will be favorable to the defense. He said in one of the ventilator pipes there was quite a hole It is apparent that the defense will not confine itself to the alibi, but that it will fight the case exhaustively on every point. The case to-day went over until Tuesday.

To Attend the Mass Meeting.

Pittsburg, Pa., September 27.—Walter Ainsley and Bernard Rice, representing the DuBois miners, arrived in this place today on their way to the Clearfield region where a mass meeting has been called, to be held at Ramey on Sunday. On the Wednesday following a convention of delegates, representing the miners in the central and northern Pennsylvania coal regions, will be held in Philipsburg. The call is signed by William B. Wilson, and object is stated to be the determining of what action shall be taken to protect and advance the interests of the miners.

The miners in the employ of the Bell, Lewis & Yates company, in the DuBois, Reynoldsville, Punxsutawney and Toby Valley mining district and the miners employed by the Berwind-White Coal Mining company at Horatio and Anita, have already demanded an advance of five cents a ton in the mining rate, to take effect October 1.

Still in a Deadlock.

Lewistown, Pa., September 27.—The republican judicial conference is still in session here with no signs of an adjournment and no signs of a compromise. As the fight progresses the feeling becomes more pronounced and more bitter. Neither Mr. Culbertson nor Mr. Williamson will withdraw and the prospect of a three-cornered fight is growing more sure as each day passes. The conferees are holding three sessions per day and are as far from any definite result as when they first met on Monday in Huntingdon. Up to 6 p m. today 284 ballots have been taken and the result has been 3 for Culbertson and 3 for Williamson each time. The conference is now in session for the evening.

A Railroad Record Broken.

Syracuse, N. Y. September 25.—The New York Central road broke the Albany Syracuse record again today. The distance from the capital to the station in this city is 147 miles and eighty-four one hundredths. Engine No. 999, drawing two cars filled with New York papers covered the distance yesterday in 134 minutes and 30 seconds. To-day the run was made again and the distance was covered in 130 minutes and 30 seconds. Yesterday's run was a world's record breaker. Today's run was of course even more remarkable. The average speed was over 67 miles an hour for the entire distance.

The Valkyrie Will Stay.

New York, Sept. 26.—Valkyrie III, instead of returning to England as was expected, will remain in the Erie dry dock this winter. No positive information could be obtained to-day regarding Dunraven's change of plans, but it is thought probable that as he was dissatisfied with the result of the races he would like to meet the Defender in a private race. Another story is to the effect that the Valkyrie might be used as a sort of a trial horse for the next cup challenger in 1896, and that if the Valkyrie proved the faster the cup committee might allow her to be substituted in place of the new challenger.

Says He Is a Murderer.

Portsmouth, N. H., Sept. 28.—A man who gave his name as Martin Carter and claims to belong in Baltimore, but of late to have made his home in Laurel, Md., is detained at the police station here on his own confession that he is a murderer. He told Chief of Police Butterfield that on August 17 last in Baltimore he murdered Annie Jones, a young and pretty but dissolute girl, who belonged in Coatesville, Pa., but for the past four years had lived in Baltimore, by stabbing her with a sheath knife.

He escaped, and had since been wandering about endeavoring to keep out of the reach of the officers of the law, but finally his feelings had overcome him and he decided that it was better to give himself up, as he was liable to arrest at any time. The man acts sanely and tells an apparently straight story.

Word was sent to Baltimore last night, and this morning a dispatch was received from the chief of police of that city asking that the man be held.

Got One Cent Damages.

Baltimore, September 26.—An interesting suit terminated in the superior court today, with a verdict of one cent damages. Martin Curlander and his wife visited the World's Fair last October and were compelled to occupy upper berths in a Pullman sleeping car. Riding backwards during the day rendered Mrs. Curlander ill. A sympathizing party, who had purchased a section through to Chicago, but left the train at some point east of there, gave his receipt for the section to Mr. Curlander with permission to occupy it. The Pullman conductor re-sold the section and forced Mr. and Mrs. Curlander to vacate.

Mr. Curlander sued the Pullman company for $10,000 damages, claiming that his wife was made ill by being forced to ride backwards. In the trial Judge Ritchie decided that the purchaser of a seat or section in a Pullman car had a legal right to transfer it to whomsoever he pleased and that Mr. Curlander was entitled to damage of the conductor's action. The point of law being decided the case went to the jury after a week's trial. This afternoon a verdict was returned for one cent damages.

Marriage Licenses.

Following is the list of marriage licenses granted by Orphans' Court Clerk, G. W. Rumberger, during the past week:

Charles H. Cruse and Miss Rebecca B. Garman, of Bellefonte.

Frank L. Wetzler and Elizabeth A. Lingle, of Boggs township.

Howard F. Weaver, of Spring Mills, and Kate E. Beam, of Penn Hall.

Charles B. Nell and Maggie R. Meyer, of Putter township.

Geo. R. Garis and Maggie Tones, of Bellefonte.

John L. Walk and Minnie Reese, of Taylor township.

Jacob S. Neidigh and Nora Crommiller of Ferguson township.

Oscar W. Bathurst and Willah M Peace of Roland.

C. P. Hassenger and Mary E. Atherton, of Philipsburg.

Eugene B. Hollabaugh, of Morris twp., Clearfield county, and Henrietta Gay, of Wallaceton, Clearfield county.

Pay Of Election Officers.

Hereafter election officers will get a fixed sum for conducting an election, and it will be just so much—no more, no less. The legislature enacted a law which says that "the pay of the judges and inspectors at all elections hereafter shall be three dollars and fifty cents each at each election so held without regard to time, and the pay of the several clerks to each election board shall be three dollars each without regard to time. Hereafter according to this law, the election boards which are compelled to work far into the election night and mayhap into the next morning, will get pay for the one day and no more.

PRETTY

AND ATTRACTIVE WOMEN.

Their Good Looks Not a Secret.

[SPECIAL TO OUR LADY READERS.]

No matter to what country she belongs, or whether she be black or white, as a woman she desires to look well.

Women know the influence of beauty on men; men rarely admire a beautiful invalid, but they do admire a woman in whom is blended good features and perfect health.

There is no secret about a woman's beauty; it all lies in the care she devotes to herself, to removing from her system all poisonous impurities, and keeping at bay those fearful female diseases.

The flashing eye, elastic step, and brilliant complexion are never companions of a womb trouble; only the distressed expression and aches, pains, blues, faintness, dizziness, bearing-down feeling, etc., keep it company.

Lydia E. Pinkham's Vegetable Compound removes female troubles promptly, and cleanses, invigorates, and consequently beautifies, the form of woman. Women, the world over, pay homage to it, and praise its discoverer. Your druggist sells more of it than all other female medicines.

THE HUNTINGDON MEETING.

Of the Women's Home Missionary Society of Huntingdon Presbytery.

Huntingdon, Sept. 26.—The convention of the Woman's Home Missionary society of the Huntingdon presbytery, met promptly at 9.30 this morning. A rain was falling but it in no way dampened the enthusiasm of the members. The half hour devotional exercises were led by Mrs. D. H. Campbell, of Mount Union, which were followed by a beautiful hymn entitled, "Only Remember by What We Have Done," rendered by Miss E. Fuller, a pupil of Miss C. Freeman, who sang for the convention at Tyrone two years ago. Miss Irvine, the president, read a letter from the synodical president, appealing for an advance in contributions to be applied for unpledged salaries and educational advantages. She asked for an advance of fifteen per cent. over the contributions of last year. The society by a rising vote decided to try and raise the advance. Miss Sara Hutchinson, of Altoona, read a very interesting and able paper on "The Perpetual Obligation of the Church to Evangelize the World." Mrs. Knight, the secretary of literature, was providentially detained at home, so that the report was obtained from that department. Mrs. M. Thompson, of Altoona, also failed to arrive, so that the report of the Sunday schools was also missing. Mrs. W. Miller, of Altoona, read her report as corresponding secretary. In the year's record there was found much encouragement, although of course, there were a few failures. Mrs. Baily, of Huntingdon, the treasurer, made her annual report. Total amount of contributions was $1,865.45, from 34 auxiliary societies, 19 bands and 37 Christian Endeavor societies. This is irrespective of boxes sent from various churches to home missionaries; total value of boxes, $767.48; boxes and money, $2,622,38. There was a decrease during the year, which was not surprising, as it was owing to the hard times. But there is a bright side in the fact that our society has been able to meet all its pledges, and more. The reports were then adopted unanimously by the convention. As Mrs. Preison was obliged to leave last night, Miss Scott, of Philipsburg, told us of Mary Holmes seminary, of which she was one of the teachers. She gave a most interesting account of the routine of the school.

Convention adjourned to meet at two o'clock.

At the afternoon meeting Mrs. Barr led the devotional exercises, after which Mrs. Landis, of Hollidaysburg, read the reports of the different bands for the year. Miss Fuller, of Mount Union, gave a beautiful recitation entitled, "The Finding of the Cross." Miss Miller, of Huntingdon, sang a solo "Come Unto Me."

Mrs. A. Laporte, of Tyrone, made a short but very effective speech, urging the societies to send more definite description of the delegates, so that they can be properly placed. In the absence of Mrs. Knight Miss Alice Moore and Miss Bain distributed the literature, after which a home missionary review was conducted by Mrs. Stiles, of Altoona, and the questions answered by the convention.

Miss Alice Moore rendered a lovely solo after which there was a concert of prayer led by Mrs. Freeman. The convention then adjourned to meet in Philipsburg next Sept.

Big Lumber Deal.

Williamsport Sun: R. T. Dodson, of Arnot, superintendent of the Blossburg coal company, is negotiating for the purchase of the stumpage interests of Seaman and Linck, the extensive lumbermen of Nauvoo, and of others owning timber on the headwaters of Little Pine creek, reported as amounting to fully 200,000,000 feet. The long Run railroad, belonging to the Blossburg coal company, will, if these purchases are made, be extended some six miles through Liberty township into this large body of timber, said to be the finest body of hemlock in this section, and the logs will be hauled to the Morris & Landrus mills belonging to the company. At present the logs stocked in that section are floated to Williamsport and manufactured.

The Ladies Home Journal Invests.

What is generally conceded in Philadelphia to be one of the most desirable buildings sites in the city has just been purchased by The Ladie's Home Journal. The property is located at South and Walnut streets, which means that it fronts on two of the most beautiful squares in Philadelphia, the famous Independence Square on the east and Washington on the south. The land acquired includes five properties. On May 1st, next, the house there on will be torn down to make room for a building costing $250,000, to be solely owned and exclusively occupied by the Journal. The building will require two years in its construction.

Know All About It.

Only printers and publishers know the infinite details that go to make up a single issue of a newspaper. The reader likes or dislikes his paper in various points, but is often at a loss to define his objections, and as frequently fails to understand the reasons for what he calls defects. What he finds to commend he expects as a matter of course, and not knowing much about the ability, enterprise and toil it takes to bring all these good features together, fails to appreciate to the fullest the real work of those in charge.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

A Cold-Blooded Murder.

Harrisburg, Sept. 25.—About 8 o'clock this evening a cold-blooded and brutal murder was committed at Bridgeport, a small village on the Cumberland shore opposite the city. Two rough strangers, who crossed the river bridge late this afternoon, were the murderer and his victim. They were evidently companions in crime as a satchel which they carried contained a dark lantern and burglar's tools. During the afternoon the two men ran the town and the village hotel, threatening to kil all who opposed them. One of the men carried two big revolvers and juggled them cowboy fashion. He boasted that he had killed several men in Texas. Both were roughly dressed and villainous looking tramps.

After a fight in which one whipped the other, they shook hands and resumed their reign of terror, which wound up at eight o'clock this evening by the fellow with the revolvers stealing up behind his companion and putting five bullets into his head, killing him instantly. He then ran away and dared anybody to follow him. He has not been apprehended. Another tramp, who says he is John Gallagher, from Wilkesbarre, is in jail as a suspect, but is not believed to be the murderer.

The Last Bulletin.

The weather crop bulletin issued by the Pennsylvania State weather service for the week ending September 23d will be the last for this season. The last bulletin reads as follows: The extremely hot and dry weather of the past week caused the corn and buckwheat that had escaped injury by frost of the 15th, to mature and ripen rapidly. Much of these crops have been harvested. Seeding is well advanced, but some is still delayed on account of the dryness of the soil. Pasturage is generally reported as being dried up and short. A few sections have a large apple crop. In many sections the streams and springs are unusually low and some wells are entirely dry.

Want More Wages.

Pottsville, Pa., Sept. 25.—The United Mine workers of this district met here today and made a formal demand for an increase in wages. This resolution was adopted:

"Resolved, That in line with the general industrial revival we, the miners and laborers of the anthracite coal region, do hereby most respectfully request our operators to grant us a restoration of our wages in proportion to the advanced market price of coal."

DURING the coming year *St. Nicholas* will print a series of characteristic letters written by Robert Louis Stevenson to a boy relative, describing the romantic incidents of his life in Samoa. Mr. Lloyd Osbourne will contribute a paper filling out the episodes touched upon by Mr. Stevenson. The letters will be enriched by a series of pictures from photographs, most of them never before published. Critics have dwelt upon the "perennial boyishness" of Mr. Stevenson's nature, and this quality will be strikingly illustrated in these letters.

Arms for Cubans.

New Orleans, Sept. 15.—The steamer James Woodall proposes to leave here to day, and the sensational feature of its departure is the announcement that its mission is to take a large consignment of arms to the Cuban insurgents. The arms are said to be waiting near the mouth of the river. The vessel has previously been charged with running the Spanish blockade and landing Roloff and his party on the Cuban shore. Some of the crew made the charge while in Baltimore, but it was not proved and the boat went into dry dock here unmolested.

MCCLURE'S magazine for October, maintains its reputation as one of the best publications of its class in the world. The number before us is fully equal to any that has preceeded it, and this is saying much, for it is always full of sketches and designs of absorbing interest. To speak of all its excellent qualities would take more space than we can give. It is a magazine that should be in every intelligent family. Address No. 30, Lafayette Place, New York City.

A Site Selected.

The place where the second gas and oil well will be put down by the Salt Lick company has been decided upon. The well will be drilled near Potterdale, on what is known as the old Thomas Michaels place. The lands are now owned by I. C. McCloskey, the president of the Salt Lick Gas and Oil Company. The drilling will commence as soon as the derrick is erected and the machinery ready, and the hole will be put down 1,600 feet if necessary.

BEFORE I could get relief from a most horrible blood disease, I had spent hundreds of dollars TRYING various remedies and physicians, none of which did me any good. My finger nails came off, and my hair came out, leaving me perfectly bald. I then went to

DEATH CAME SUDDENLY.

Tragic Fate of a Man Who Was Married but Two Hours.

Huntingdon, Pa., Sept. 25.—Never perhaps in the history of accidents or fatalities in Huntingdon county has any occurred in the unusual manner of one reported from Juniata township this evening. It was a most tragic ending of a day supposed to close brightly, and as a result a two-hours-old groom is cold in death and Miss Mary Bowser was a bride for the same length of time.

There was a big country wedding at the home of Mr. James Bowser between 2 and 3 o'clock this afternoon, in which his daughter, Miss Mary, and Jesse Morningstar were the principals. Neither of the contracting parties is over 23 years of age. All was sunshine and happiness at the Bowser home until 5 o'clock this evening and then the place became enshrouded in gloom.

The young married couple were seated in a front room of the dwelling, the bride seated on her husband's lap, peering out of the window. Folks were on the outside, and McClellan Spooneybarger, of this town, passed by the window carrying a loaded gun. The bride playfully remarked that if Spooneybarger would hand her the gun she would kill a turkey, and the request was just as innocently complied with. In drawing the gun across the window sill it was accidentally discharged and the groom received the force of the entire load. His head was literally blown off his shoulders and blood and brains were spilled all over the bride's skirts.

The greatest excitement prevailed when the report reached this town and the coroner and many others at once repaired to the scene, about seven miles distant. The coroner is investigating the cause of the tragic fatality.

Do You Belong to This Brigade?

There is a great mistake in nagging at the faults or defects of a child or friend, instead of stimulating or cherishing the good quality, which thus encouraged might so luxuriantly thrive as to overgrow and stifle the fault. Better cheer the good than forever bark at the wrong. The most contemptible character in the family is the one who is always hitting the other's weak points. All the family toes would not so often be sorely stepped upon, if each good gift were magnanimously acknowledged, each fault gracefully over looked. Then home might be a sure retreat from outside cares and crosses. Home life is too often turbulent with unhappiness, fault finding, harsh retort and squabling over trifles. There is sometimes one of the family, like a household angel, soothing the grief and bringing out the good in each. These joy bringers are nightingale souls awakening the sweetest bird song from every dumb, despairing heart. This rubbing up faults, hitting sore spots, is sometimes done heartlessly, often ignorantly. A woman most carefully considerate of her birds, chickens and cows, in the house, perhaps, will forever be stirring up some discomfort, hunting for some shortcoming. She belongs to the hammer and tongs and poker brigade.

THE PITTSBURG TIMES has now turned its attention to a practical effort to help the churches. It offers to pay 25 per cent, of all "cash in advance" subscriptions for four months ($1.00) or longer, received by it between now and April 1, 1896, to such churches as the remitters may indicate. In addition to this liberal commission, it offers twenty-three cash contributions, raging from $1.000 down to $25, and aggregating $2,500, to the twenty-three congregations securing the largest number of subscriptions under the terms of its offer. This is a unique plan for introducing THE TIMES into more families than it is now going to, and one which is bound to benefit churches to the amount of the commissions, to say nothing of the munificent offer of $2,500 extra in cash contributions. Full details of the plan may be seen in THE TIMES any day. Already a large number of churches have availed themselves of the offer made.

The Mora Claim Paid.

Washington Sept. 27.—The state department was advised this afternoon of the payment in London to-day of the Spanish draft for the Mora claim and the deposit of the net proceeds to the credit of the secretary of state in the New York sub-treasury. The draft called for the payment of $1,449,000 in gold.

IN the October HARPER'S Captain A. T. Mahan, of the United States service, discusses the uses of a war navy in the future extension of American influence, and the necessity of adequate protection for the interests already acquired by the United States.

THE race and religious questions in India are still the leading political issues. An interesting account of the curious conditions there is given by Edwin Lord Weeks in the October HARPER'S, together with fourteen illustrations,

THE second of Richard Harding Davis's papers on Honduras, printed in HARPER'S MAGAZINE for October, contains an account of the journey to the Pacific coast, and descriptions of the primitive life inland all done in Mr. Davis's most entertaining manner.

"ALONE IN CHINA," by Julian Ralph in the October HARPER'S, is a vivid pic- of the life he American bride of a Chinese mandarin. It is illustrated by C D. Weldon.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

A Small Judicious Investment Often Brings a Fortune.

D READERS:

We have heard from many of you during the brief period that our advertisement appeared in this space. Any others desiring full reports and statements can secure same by writing to us.

The further opening up of the South Central group of gold mines, and the erection of a Stamp Mill to reduce the company's ore to bullion, is a square, legitimate use of capital.

1. Mr. Barry, formerly of Cripple Creek, the Bonanza gold camp of Colorado, sold his interests there, and bought the Morning Star gold mine, a producer in the vicinity of the South Central group.

2. Captain Plummer, formerly of the Granite Mountain mine, is now working the Delamar Mine, a large producer in the vicinity of the South Central group.

As the Granite Mountain (Gold and Silver Mining Co.) stock rose from about twelve cents a share to over $50 a share, and paid from 25 cents to 50 cents per share per month in dividends, under the superintendency of Captain Plummer, we consider him a pretty safe guide to follow in mining, and we invite you to participate in the nvestment.

Orders received within a reasonable time, on or accompanied by the following coupon [Mention this paper,] will be filled at

12 1-2 Cents a Share. **Certain** to advance and yield 10 to 19 fold, and over, on this price.

Very respectfully yours,

The South Central Consolidated Gold Mining and Milling Co

[STOCK ORDER FORM.]

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—Thursday morning a child's cape was found on Water street, and the same can be recovered by calling at the Eureka Grocery.

—A telephone has been placed in the residence of Henry Harris on Howard street. This is a great help to Mr. Harris in his business.

—The roads on Jail hill are in a very bad condition, and should be repaired at once. The way they are now it is very hard to drive in that vicinity.

—There are a number of improvements being made to the various properties situated on Howard street. When they are all completed it will greatly enhance the beauty of that thoroughfare.

—We are sorry to announce the illness of Fred Montgomery, son of Winn. Montgomery, on Linn street. We hope his illness will be short and that he will soon be out among his many friends.

—Big, fat, jolly John Rupp, ex-register of Centre county, has recently purchased the Gingerich flouring mill at Oak Hall, it is said, and in the future will give his attention to grinding out the stuff for people to eat.

—Have you visited Roy Bosner's news stand in the Bush House office? If you have not, you should step in and buy a paper of him and see what a snug place he keeps in there. When Roy gets rightly started, he intends keeping all kinds of the latest literature.

—There are many persons in and around Bellefonte who are always crying hard times, and say they are getting worse, when the truth of the matter is, they do not know the measure of prosperity being experienced by those around us who are attending strictly to business.

—Mrs. Murray, probably the oldest person in Bellefonte, she being almost 99 years of age, died at the home of her son Torrence, near McCalmont & Co's lime kilns, at eleven o'clock Thursday night. The funeral was held on Monday at 9 o'clock, interment being made in the Catholic cemetery.

—George M. Rupp, aged 58 years, died at his home in Aaronsburg, on Tuesday. He was a veteran of the late war and had been ill for several years. Deceased leaves a wife and seven children. He was a member of the W. W. Bierly post, G. A. R., of Millheim, which organization will bury him, with the honors of war, tomorrow at 9.30 a. m.

—Mrs. Elizabeth Jacobs died at her home at Pleasant Gap, on Monday evening, after several weeks illness with heart trouble. Deceased was a widow of three husbands, all of them having died a number of years ago. Interment was made in the Lutheran cemetery, Wednesday afternoon at 2 o'clock, services having been held at her late residence.

—Clearfield Journal: Henry Leinger, of Union township, who is 84 years of age had his barn and all his crops destroyed by fire on Thursday.. He had hid in the barn $700 in gold, which he had concealed there for safe keeping, and this was secured by a neighbor at the peril of his life. The fire occurred during the electrical storm on that day.

—A very delightful party was held at the residence of Mr. and Mrs. James Wagley, on East Howard street, on Thursday night, it being a birthday party given in honor of Mrs. Wagley's daughter, Mabel From, who had just attained her—gosh! but we came near giving it away. However, the young people, of whom there were quite a large number present, had a very enjoyable time.

—John S. Glenn son of John Glenn deceased, of Milesburg, and cousin of our fellow townsman Chas. Glenn, died at his home in Chicago, Sept. 25 1895. The deceased learned his trade that of a Machinist, with Duncan & Hale, in this place some years ago. He leaves to mourn his loss a son and daughter besides three brothers and a sister now Mrs. Wetzel of Oregon. His wife having preceded him to the tomb some five months ago.

—Mr. George B. Johnston will go to State College next week where he will superintend the laying of four miles of water pipe for a local company. The pipe is 12, 10, 8 and 6 inches and will be laid from Shingletown Gap in the Seven Mountains to State College in order to give the town a sufficient water supply. Heretofore the large well on the College campus had supplied all the needs, but the growing town makes the drain on it too heavy.

—On Wednesday Mrs. James Mann, of Howard township, made her first visit to Bellefonte, although she is now past 53 years of age, and was born and raised in Howard township. Just think of a person spending 53 years within twelve miles of the borough seat and never being to see what for a place it is. Mrs. Mann came here on a little business regarding the getting of a pension, and when this was transacted, the first place she asked for was Lyon's store.

—Mr. James A. McClain is at home from Spangler on a visit to his family in this place.

—The equinoctial storm is likely to drop on us at most any time. You had better be prepared for it.

—It is reported that Miss Nora Stover, of Beaver and Hoy's row, is very ill at her home with stomach trouble.

—Saturday was atonement day, consequently the Hebrews observed it by closing their stores until 6 o'clock in the evening.

—E. C. Cooke disposed of the balance of his notions and dry goods from the vacant store room in Crider's Exchange on Saturday.

—Frank Shugert has secured a lucrative position with McCoy and Linn at the Chain works. "Oh the industrious are sure to succeed."

—The curb market is gradually getting smaller as the weather gets colder. Saturday's market however was very good and largely attended.

—A number of Bellefonte people drove to State College on Saturday to witness the foot ball game between State College and Gettysburg.

—Doctor John M. Gregory, ex-president of the Illinois Industrial University, has been appointed to the chair of Political Economy, at the State College.

—As winter is close at hand it is the duty of every citizen to see that the board walks and pavements are properly repaired. It might save some trouble.

—Judge John G. Love, has one of the brightest little boys, on Linn street, and now on Wednesday morning, a daughter comes to add a new charm to the pleasant home circle.

—Albert Schad, of the firm of R. J. Schad & Bro., is rejoicing over the arrival of a son at his house on Wednesday morning. The little fellow will make his home with Albert for a long time.

—Charles Neff, of near Centre Hall, was married last Thursday morning to Miss Maggie Moyer of Tusseyville. Both the young people are well known throughout the county. We extend congratulations.

—We are pained to announce the serious illness of Adeline, the young daughter of ex-Sheriff Woodring, on High street. The child is troubled with inflamation of the bowels, and it is to be hoped she will soon recover

—Everybody should subscribe for the NEWS. All the latest local and city news is published every day. Hand your name to one of the carriers or leave it at the NEWS office and you will have the paper delivered free to your residence.

—Everybody who was present at the opera house Wednesday night, speak in in the highest words of praise of the performance of the McCarthy Mishaps company, saying that it was one of the best specialty companies that has ever played in Bellefonte.

—It is to be hoped that the second party fight that is now being talked of in the press of the state will not mature; as one such fight in the republican party is enough in one year. And besides, the party leaders should have better sense than to engage in another so soon.

—Hollidaysburg artist of the paint pot and brush, on a wager, one night last week ate two dozen fried eggs and a quantity of bread, and this, too, after having partaken of a heavy supper. He offered to repeat the gastronomic feat there on a wager of $10, but found no taker. He is not a very big man, but his capacity is all right.

—Very many people around Bellefonte have an idea that there is little being done at our various industries, and that times are now as hard as they could well be. This is a mistake, and on Monday the NEWS will publish an article to show that at least one industry is booming and will boom for several years to come. Watch for the article.

—Chas. Neff, and brother, bought about two years ago the Durst farm, so-called from their father this farm contains about 200 acres and is one of the best farms in the valley. It is about three miles west from Centre Hall. They are energetic young men, first class farmers and are bound to succeed.

—The "Magnet" on Thursday morning went for every paper in Bellefonte but itself and the "Gazette" for the way they spoke about the granger's picnic last week. Now, although we know why Editor Bailey is so full of praise for the picnic, we are at a loss to understand why the other paper should say anything but the truth, and that certainly could not redown with very great good for the picnic as a place where the farmers either got much pleasure or profit.

—John A. Miller has been appointed agent for the Standard Paint company, and is prepared to put on buildings their "Water Proof Building Sheathing, and Insulating Papers." It is the strongest and only building paper, sold at popular prices, and is made of first-class stock and is rendered water and gas proof. It is the only paper that improves with age for sheathing buildings. Leading architects pronounce it the best in the market. Builders and others wanting roofs or sheathing on their buildings would do well to consult Mr. Miller, or address Box 245, Bellefonte, Pa.

A Basket Deal.

On Friday of last week competition in trade among the stores in Criders Exchange ran high and ended up in a little joke which was immensely enjoyed by the spectators. It seemed that Schreyer and Reese had some large baskets and the Racket also had some of the same kind. During the afternoon Mr. Shem Spigelmeyer put his baskets out on the pavement and placed a big card on them stating that they were 13c a piece. In a few moments Mr. Schreyer put his baskets out and marked them 12c a piece. Then the Racket made theirs 11c at which Schreyer dropped to 10c. At this stage of the game a rush commenced on Schreyers, baskets much to the enjoyment of the grocer and when it finally subsided he had disposed of about three dozen baskets, while his competitors had not sold a single one. After all of Schreyers baskets had been sold, Mr. Spigelmeyer gave a signal upon which out came his clerks carrying the baskets that a few moments before had been sold by Mr. Schreyer. Suddenly it dawned upon Harry that he had been worked and he then joined in with the rest of the crowd in a good laugh.

That Panther Was a Little "Foxy."

Although we found it out this longtime, we did not deem the occasion ripe for comment until we had seen everything that might be said on the subject elsewhere, but it cannot but be admitted that the big panther story to which we gave space and credence on Monday was an unwarrantable lie, perpetrated as a joke on some person, but which was carried a little too far when it was given to the newspapers as a fact. And the man who perpetrated the same, if it was at all considered worthwhile, could have the joke turned on him very nicely. The recent session of the legislature passed an act that is just suited to such jokers, and already a number of young men throughout the state have gotten themselves into pretty deep water, all through their love of a joke on the newspaper man and consequently the unsuspecting public. Hereafter when people from that section of the county telephone any news items to Bellefonte they will have to send with them a doubly stamped and sealed affidavit of the facts.

Badly Hurt.

George P. Miller, who is 80 years of age, and who lives with his son George, on a farm near Hoy's school house, along the Boalsburg pike, met with a painful accident Wednesday which might end in his death. He got up early in the morning and went down stairs, and in attempting to go through a door leading into the dining room he opened by mistake the door leading into the cellar. The stairs are steep and the first step he took precipitated the old gentleman into the cellar. He injured himself so badly that when found a short time afterward he was insensible. Dr. P. S. Fisher, of Zion, was sent for who says that he received internal injuries which may prove fatal. His advanced age is much against his recovery. Mr. Miller is one of Centre county's best and most reliable citizens and it is with deep regret that his friends will read the account of his sad misfortune.

The Pears Were Ripe.

Here is a good one on Jake Runkle. Jake has in his yard, a fine young Bartlett pear tree, which was laden with beautiful, large, well-shaped golden pears, and every day he would walk out and feast his eyes on the luscious fruit. A few days ago he said to his wife "Maria, those pears are ripe, I want you to take them off to-morrow and preserve them, there might not be any pears next year, and if there is anything in the world prisoners are fond of it is pear preserves. It will keep a year if you make it strong enough." Alas! poor Yorrick; next morning the tree was relieved of its burden; the bird had flown, his hopes vanished. Some miscreant biped or bipeds, who had not the fear of the law or of God in their eyes appropriated the fruit to their own use, and now Jake threatens to cut the tree down and says he will "bile" a kettle of applebutter as a substitute for pear preserves.

Her Objections.

O maiden, thou art passing fair;
No charms with thine are worth compaing.
I love thee, yes, I vow, I swear:—
Said she, "I much object to swearing"

O from my suit love, do not shrink,
I feel thy bright eyes' fascination;
Intoxication love-draughts drink—
Said she, "I hate intoxication.

If thou reject my race shall end
Beneath the turf the earth embracing;
The last remains of thy fond frind—
Said she, "I have the turf and racing"

But if he had taken with him as a present, a bottle of Dr. Pierce's Favorite Prescription. he would have been more successful in his suit. She doubless owed many of the charms captivated him to its virtues. For brightening every womans eyes, and giving her that healthy look so much admired by the opposite sex, it has no equal. Guaranteed to cure or benefit in all cases of "Female Weakness." irregularity. painful periods and kindred ailments, or money paid for it if returned.

Wine For the Communion Table.

Speer's unfermented grape juice preserved absolutely pure as it runs from the press without cooking or the addition of spirits or any substance in any form whatever. It is preserved by precipitating and extracting the ferment or yeast principal by fumigation and electricity.

Dr. Laurie a Candidate for Moderator.

As has already been noticed in this paper, the annual meeting of the Presbytery of Pennsylvania will be held at Butler this year, beginning October 17. The Moderators are elected annually, and this year Rev. Dr. William Laurie, D. D., of this place, will be the candidate of Huntingdon Presbytery for that position, which is one of considerable honor. Dr. Joseph V. Stockton, of Mercer, is the candidate of the western part of the state, while the east has not yet named a man. Dr. Laurie would undoubtedly make an able moderator, as there are few such learned ministers in the church as he.

And while they are about it, let the delegates from here invite the Presbytery to hold its next session in Bellefonte. It was held in the east last year, will be held in the west this year, and should be in the centre of the state next year.

Death of Miss Anna Haines.

Miss Anna Haines died at her home near Howard, in Centre County, on Thursday. She was for several years a teacher in the public schools of Altoona. She has many friends who will be pained to hear of her death. Her death was not unexpected, as she had been a sufferer from the time she left that city and went to her home. Her disease was cancer of the stomach.

Rev. J. Ellis Bell, of Altoona, came down Friday evening to officiate at the funeral, which took place at Howard, Centre county, Saturday at 10 o'clock. Miss Haines was a member of the Eighth Avenue Methodist Episcopal church, of Altoona, and a Christian young lady.

It Should Be Stopped.

The citizens of Bellefonte should see that their children are at home at night and not running around on the streets making peoples lives miserable by their heathenish yelling. One thing is certain, and that is that children cannot study and run around at night. It is the duty of parents to keep their boys at home in the evening. Almost every night a crowd of these mischevious urchins congregate near the Episcopal church and make "rome howl," much to the annoyance of the choir on Tuesday and Friday evenings. The boys mean no harm but it is pure thoughtlessness. This should be corrected at home or the police will take them in hand.

Got the Wrong Grip.

A horse jockey who was on his way west from the Lewisburg fair arrived in Bellefonte on Saturday morning and while waiting on the train had occasion to open his satchel. Upon doing so he discovered a foot ball uniform and a stick of chewing gum in place of his riding habit and other things belonging to him. The affair was soon explained in a telephone dispatch from State College from one of the Gettysburg players who said his grip had been slipped on and in place of his own he had gotten one with a bathing suit and three ears of corn in it. At this the jockey's wrath subsided.

Almost A Big Blaze.

On Saturday evening about 7 o'clock, the residents in the vicinity of the Brockerhoff house were startled by the cry of fire and immediately every one was on the run. The fire was located on the second floor of the Opera house building, in the sleeping appartments of Mr. and Mrs. Cornie Garman. One of Mr. Garman's little children had accidentally upset a lamp which set fire to the lace curtains around the windows, but as the fire was soon discovered and extinguished no damage of any extent was done.

A Pleasant Affair.

A very social company was given in honor of Miss Alma Maurer of Mackeyville, Clinton County, on Friday evening at the residence of Mr. and Mrs. Zellers on Allegheny street. Among the guests that were present were Miss Celia Armor, Mrs. E. Garman, Miss Sara Benner and Miss Annastasia Armor. The most pleasant part of the gathering was the fact that every one present were ladies who knew each other when they were young girls.

A Big Improvement.

One of the biggest improvements on the streets of Bellefonte at present, is the trimming of the shade trees. This is something that every property owner should attend to, as it is not only beneficial to his trees but also beautifying to the town; besides it will save lots of work sweeping leaves after while.

Letter List.

The following letters remain in the Bellefonte P. O. uncalled for Sept, 30, '95:

Cleiaso Flippo, Mello Guiseppo, John Genticuar, John Krupnusky, Krazier Kazimera, John Ciala.

When called for please say advertised.

D. F. FORTNEY, P. M.

A Squirrel Supper.

Monday evening Henry Yeager gave a squirrel supper to a number of Bellefonters at his popular hotel, the Brant House. Every one present seemed to have a good time and enjoyed the supper to such an extent that it was rather late when they left.

Dance at State College.

A small dance was held at State College on Saturday evening at the Phi Gamma Delta fraternity house for the lady visitors who were up attending the foot ball game.

Miss Chamberlain departed for her home in Tyrone Tuesday. While here she was the guest of Miss Mollie Crotty on Bishop street.

Miss May Crider accompanied by Miss Grace Mitchell left Tuesday for Byrn Marr, where they will attend the Misses Shipleys' school this winter.

Mr. and Mrs. Bates Bell departed on train west Tuesday evening, after a very pleasant visit at the residence of J. Fearon Mann, on Allegheny street.

Mr. and Mrs. Isaac Maitland departed for their home in Williamsport, after a very pleasant visit at the home of Mrs. Maitland's father, Daniel Garman on High street.

Mrs. Fair and Miss Furst, of Salona, sisters of the late Rev. Samuel Furst, formerly pastor of the Lutheran church in this place, are visiting friends in Bellefonte.

Rev. B. C. Shaw departed on Wednesday for Herminie, Westmoreland, county where he will take charge of a church in that place. While here he was pastor of the United Brethren church.

Ex-Mayor John Jenkins with W. A. Schreyer of Milton, arrived in Bellefonte to-day to attend the funeral of Constans Curtin. Messrs. Jenkins and Schreyer are members of the Milton Iron Co., of which firm Mr. Curtin was a stockholder prior to his death.

Miss Martha Lane departed Tuesday on the early train for Glencoe, Baltimore, where she will attend school this winter. Martha is the charming daughter of Mr. and Mrs. John N. Lane, of Linn street, and her many friends will be sorry to see her go away.

Ed. Harris, the youngest son of Banker John P. Harris, departed for Philadelphia, where he will enter the medical department of the University of Pennsylvania. Ed. has thus determined to be an M. D., and there is no reason why he should not make a good one.

A Change Editorially.

Commencing with Monday the editorial department of the DAILY NEWS will be under the sole charge of Mr. Chas. E. Dorworth—C. L. Gates having retired. All local matter will be in his hands in the future subject to his approval and use thereof. It is the intention of the publishers to run a lively local daily paper. Any articles which are of interest that are handed to the local editor or left at the office will receive careful consideration. We solicit advertising and job work and assure the readers promptness and the best of service.

It Still Continues.

The children running about the streets in Bellefonte late at night still continues and should be stopped at once. There is no use in tolerating such a nuisance when it could be so easily remedied. A place in particular where these urchins are so noisy is at the corner of the U. B. church. They disturb prayer meetings by their yelling and to get within a square of them you would think a pack of young indians had broken loose. Let the children play but see they play at the right time.
